## RICE FAMILY

Meeting of Descendants of Deacon Edmund Rice

A large and interesting gathering of over one hundred of the descendants of Dea. Edmund Rice, the pilgrim who came from England in 1638 and settled in Sudbury, Mass., was held on Friday, Aug. 30th in the First Parish Church of Wayland, formerly East Sudbury.

The last of the celebrated Rice meetings at the old Rice Spring was held over fifty years ago, and now a renewal of those happy occasions is planned for next summer, around the same old spring where the old house which was kept in the family until recently stood.

Through the efforts of Mrs. Nellie Rice-Fiske of Cohasset, the meeting of Aug. 30th was brought about; and there were present fourteen who attended the last Rice meeting, held over a half century ago. The morning session was devoted to social intercourse, followed by a basket lunch and trips to the cemetery and the old spring. The afternoon was given over to addresses, papers and business, those participating being, Rev. J. H. Hoffman of Northboro, George H. Rice of Worcester, Judge C. C. Eddy of Framingham, George M. Rice of Worcester, Edward Rice of Newton, Rev. Edward Newcomb of Framingham, and Prof. George Wesley Rice.

The following officers were elected:—President, Eustace B. Rice, 19 Shaw street, West Newton, N. E. Conservatory, Boston; Vice-Presidents, Mrs. Nellie Rice-Fiske, Cohasset, Mass., Rev. J. H. Hoffman, Northboro, Mass., Mr. M. E. Rice, So. Sudbury, Mass.; Secretary, Mr. Leslie C. Rice, Berlin, Mass.; Treasurer, Mr. Frank H. Rice, 22 Saunders St., Allston, Mass.; Librarian, Mrs. Gertrude Rice Thayer, Allston, Mass.

It was voted to erect a marker for the founder of the Rice family in America, very near to the old spring before mentioned. Contributions toward this project may be sent to Miss Clara Davis, Framingham, Mass., or to Frederick Rice, Natick, Mass. It is hoped that the marker or monument, according to the amount raised may be put in place next summer at the family reunion, although it is desired to give all the living descendants an opportunity to contribute, and this may take more time than one year. There are matters of vital interest to come before the next meeting and it is expected that the cousins will come from near and far to enjoy the fellowship and to aid in the promotion of future work for the association which is now in its beginning.

It is requested that each one reading this report shall pass it on to some other descendant, and thus help to publish it throughout our country. (It will be much appreciated if newspapers will copy, at least in part.)

## ALCOHOL CHAT

Points for your consideration. We have always had a respect for our business, particularly that part of it which relates to the manufacture of Alcohol. We have earnestly tried since February 2, 1872, to make the products of our Still, (Alcohol and Spirits) the best types of their kind. It is possible now to obtain from leading family Druggists and Grocers, Grave's Grain Alcohol in sealed 8, 16, and 32 ounce bottles, each of which has over the cork a strip label bearing our firm name signature. If your dealer can't supply you, he is missing an opportunity to give you the best thing made in Alcohol. If he wants to substitute on Alcohol, might he not want to substitute on something else? Ask for what you want and insist on getting it.

CHESTER H. GRAVES & SONS.

A great deal of preaching is being done in which no effort whatever is made to put the devil out of business.

## NORUMBEGA—VAUDEVILLE

Norumbega Park is so well established as an inland summer resort that September days have no terrors for it. In fact, it enjoys its best patronage this month, and, from a picturesque point of view, the natural beauties of this delightful resort on the banks of the Charles River are seen to their best advantage. The numerous attractions of the park such as the canoeing and boating on the Charles, Grape Arbor Cafe, Casino, Chalet of Wonders, Zoological Garden, Rifle Range, Swing Court, Merry-Go-Round, etc., have not decreased in popularity and every day finds them well patronized.

The vaudeville programme for the coming week in the open air theatre promises to be one of the best presented here this season. Beginning Monday afternoon, Sept. 9 and every afternoon and evening for the rest of the week there will be seen Lewis and Norton, promoters of cheerfulness in their odd sketch entitled "In Those Days." This delightful little skit is both dainty and charming and has never failed to excite the most hearty applause wherever presented. Ascot and Tyson will present their 20th Century Fantasia, a singing, talking and dancing act which was the feature of Mrs. Sturtevant Fish's fête in Newport this summer. Another strong act is that of Dewell, who performs marvelous feats of equilibrium and strength tests on a swinging trapeze. Other strong acts and a series of new motion pictures will conclude the bill. There will be a concert in the open air theatre Sunday evening at eight.

CASTLE SQUARE THEATRE.—The success of "The Fortune Hunter" at the Castle Square has been so great that John Craig will run that remarkable American comedy for another and last week, beginning on Monday. Its human plot and its human characters are responsible in no small degree for its great popularity, and there is not a moment in it when the audience does not follow breathlessly the progress of Nat Duncan towards fame, fortune and the hand of the girl he loves. The rural simplicity of its scenes, the combined pathos and humor of the incidents in the drug store, and a hundred touches of humanity carry the play successfully along through four acts. Everybody in the cast of "The Fortune Hunter" at the Castle Square contributes towards its success, and Mr. Craig and Mary Young are especially good as the hero and the heroine. Mr. Meek, Mr. Walker, Miss Laurett Browne, Miss Shirley and a dozen others also have their share in the production. It should be remembered that "The Fortune Hunter" can be seen for only one week more on the Castle Square stage.

## BASE BALL

Some Good Games Even If Season is About Closed

As the baseball season is fast drawing to a close, the managers of the various teams in the city scheduled a doubleheader for their teams on the holiday, and although not a particularly good day for baseball, the games drew a large number of spectators.

Upper Falls played two games on Monday, suffering a defeat in the hands of the Lower Falls A. A. in the morning 7 to 4, but came back strong in the afternoon and handed a defeat to the Cambridge C. C. 5 to 3. Newton Catholic Club won two easy contests during the day, taking the Lincoln A. A. into camp in the forenoon contest 13 to 2, and defeating the Needham Y. M. C. A. in the afternoon 15 to 5.

Needham Y. M. C. A. defeated the Newton Y. M. C. A. in the morning at Needham in an interesting game 7 to 5, and on the home grounds in the afternoon the local team took the second defeat within a week from the St. Mark's nine 18 to 5.

On Saturday afternoon the Newton Y. M. C. A. team, which so far this season has won 18 games will play the Newton Catholic Club. Both teams have tried to arrange the game earlier in the season, but as both schedules were well filled, the managers could reach no agreement. The game Saturday should prove a good drawing card from all sections of the city, as both teams have a large circle of followers.

## POLITICAL NOTES

Mr. G. Fred Simpson entertained forty or fifty prominent Republicans last Friday at lunch at Youngs Hotel, Boston, as the beginning of his campaign for the republican nomination for councillor in this district. Mr. William F. Garcelou presided and remarks were made by several of those present. Lowell, Natick, Stoneham, Winchester, Concord, Bedford, Weston, Woburn, Newton and other parts of the district were represented. Among those present from Newton were Messrs. Dwight Chester, Frank L. Richardson, Frank L. Nagle, Oliver M. Fisher, James H. Hustis, Joseph B. Simpson, John A. Potter, George H. Ellis, and Hon. Henry E. Bothfield.

Paris Pattern Supply Co., 7 Temple Place, Boston, are showing some beautiful and practical foreign designs in paper and the best thing about this is the pattern of those designs are skillfully adapted to the requirements of each lady's particular form, which adds so much grace and elegance to the style.

## FOUND DEAD

It is Thought That Fall From Wagon Killed Driver

Mr. Joseph Chappelle of 40 North street, Newton Centre, met his death in an unknown manner last Friday on the grounds of the Newton Cemetery. The deceased was employed as a driver on one of the heavy teams in the cemetery, and when his horses were found walking away with no driver, a search was made, with the result that Mr. Chappelle was found lying on the ground with a fractured skull, dying without regaining consciousness. Medical Examiner George L. West viewed the remains later and gave as death a fractured skull, as the result of a fall from a wagon.

The deceased had resided in this city for several years and was a member of Middlesex Court, No. 60, M. C. O. F. The funeral was held on Monday morning with a regular high mass from the Church of the Sacred Ransom, interment took place in the family lot of Holyhood Cemetery, Brookline.

HOLLIS STREET THEATRE.—All of the adjectives in Webster's Unabridged Dictionary, describing a vicious farce comedy are applicable to "A Night Out" in which May Robson will begin her fourth capacity week at the Hollis Street Theatre. "A Night Out" has more laughs than a dozen alleged comedies. The humor and repartee are so rapid that the auditor has only half recovered from one laugh spasm before another is in order. Miss Robson portrays the part of "Grammum." Her daughter is of the strict, severe type of a woman who closes the house doors at 10:30 o'clock and who holds her sons in strict check. The grandmother believes in permitting them more liberties. A stolen bond, a fortune hunting professor and a perpetual bore of a woman add materially to the comedy of the play. The boys have a habit of sliding down the vines from their window after closing house; "Grammum" learns of it and decides to accompany them. She does and the situation is full of fun and laughs. The final denouement, when the stolen bond is traced to the son of the professor, May Robson's acting is a joy. See her and pick your own adjectives. Her skill with such droll parts has long been beyond that of any other American actress. The company surrounding Miss Robson is exceptional in that each respective role is so well handled.

E. F. KEITH'S THEATRE.—One of the most notable engagements made by Mr. B. F. Keith this season for his beautiful Boston playhouse, is the return of Lucy Daly to vaudeville, after an absence of several years. Miss Daly is without question one of the cleverest dancers that ever stepped on an American stage. She will appear in a new act especially written for her by Hap Ward, and entitled "The Different Phases of Life," supported by a company of pretty girls and clever comedians. Aside from this brilliant star, the week will be also notable for the first American appearance, after a tour of the entire civilized world, of the Six American Dancers. This splendid combination of dancers will present many new and novel stunts. Still another big feature will be Blackface Eddie Ross and his famous banjo, in a new version of his now celebrated specialty. Other great acts on an excellent bill will be Goldsmith and Hoppe, the Two Commercial Drummers, who combine comedy with music in the most interesting and entertaining fashion; Barley's Dogs, a wonderfully trained troupe of intelligent canines; Tom Kyle and Company in their amusing farce, "A Doctored Widow," which is said to convert seas of trouble into waves of laughter; and Corin-Aillyn and Tyler, in a novel act called "The Enter-

## AUTO SMASHED

Drunken Chauffeur Responsible For Wrecked Car

An automobile owned by Mr. James R. McAleer, president of the Boston American League baseball team, was wrecked on Waverley avenue last Sunday forenoon, and the three occupants narrowly escaped injury, when the car collided with a post. The chauffeur, John Doherty of Brighton was arrested by patrolman Richard Conroy on the charge of drunkenness and operating an automobile while under the influence of liquor, and fines aggregating \$30 were imposed by Judge Kennedy on Tuesday morning. He appealed.

Doherty had taken his employer to church and was on his way home to have breakfast, accompanied by two friends when the accident occurred. The machine was coming over Waverley avenue from Commonwealth avenue, when the rear skidded, and the machine crashed into a post. The three occupants were thrown out, but luckily escaped with a few bruises. While the three men were examining the wrecked car, officer Conroy appeared on the scene and took Doherty in custody. The car was later taken on a truck to a Brookline garage.

## CANNON—MURPHY

In the Church of Our Lady last Wednesday morning, the wedding of Miss Mary Matilda Murphy, daughter of Mrs. Catherine Murphy of 8 Bacon street, and James Sylvester Cannon, son of Mr. and Mrs. James M. Cannon of 58 Clinton street, was solemnized at a nuptial high mass celebrated by Rev. James F. Kelly, in the presence of a large gathering of professional men and residents throughout the city.

The bride was attended by her sister, Miss Catherine Murphy, of Newton, and the best man was Mr. William F. Cannon of Washington, D. C., brother of the groom. The ushers were Dr. T. Morton Gallagher of Newton, Dr. Edward Fall of Watertown, Mr. John Lewis Sheehan, L.L.D., of Boston, Mr. T. Vincent Cannon, a brother of the groom, of Newton, Mr. Daniel J. Daley of Brookline and Mr. Edward F. Bryson of Newton.

Following the church ceremony a wedding breakfast was served at the home of the bride, followed by a large reception. The couple standing in front of a large bank of flowers, received the guests, assisted by the bride's mother and parents of the groom. Following the reception the couple left on an extended wedding trip to Canada, New York, Philadelphia, Washington and Atlantic City, and on their return on October 15 will make their home at 300 Centre street, Newton.

Both bride and groom are widely known in this city, where they have always lived. The bride is connected with several social clubs, and the groom, a graduate of the Boston University Law School, is a member of several professional clubs and fraternal societies. Mr. Cannon is the Democratic candidate for Senator from the First Middlesex Senatorial District this year, and was also a candidate for the same office two years ago, against Judge Mulligan of Natick.

## BAND CONCERT

There will be a band concert on Sunday afternoon from 3 to 5 by the Cambridge City Band in rear of the Old Peoples' Home, Mt. Auburn street, Cambridge, on land of the Metropolitan Park Commission.

All interested in Lighting Fixtures for their homes, and public buildings, should not fail to see the display of McKenney & Waterbury Co., No. 181 Franklin St., corner Congress, an exhibition of Lighting Fixtures to meet all decorations including the new Equalite, the softest and most delicate indirect light known.

## PLAYGROUND NEWS

Commission Now Has Control of High-lands Playground

The large tract of land purchased by the residents of Newton Highlands a little over a year ago, and presented to the city to be used as a playground, was turned over to the Playground Commission last week by Forest Commissioner Charles I. Bucknam, who since the gift was made to the city has been leveling the grounds, and otherwise putting it into shape.

The grounds are located on the corner of Hoyleston and Winchester streets, centrally located, and since it has been thrown open to the children has proved very popular. During the past week, Mr. Charles F. Johnson, a member of the Playground Commission, who was largely responsible for the purchasing of the land, has been directing play.

The Thompsonville playground, conducted by residents in that section purchased a set of swings last week, and these were put in shape by Mr. Bucknam.

The Playground Commission have made several changes in the directors of the various playgrounds, as many of the staff during the summer months have severed their connections. The new appointments are Edward B. Judd, assistant master of the Pierce School, West Newton, as instructor at the West Newton Common, William H. Crafts, assistant master of the Mason School Newton Centre, as instructor at the Newton Centre Playground, and Leslie M. Lane, assistant master of the Stearns School, to hold a similar position on the Stearns Playground.

Superintendent Ernst Hermann has given out the standing of the Playground League for the season. West Newton leads in the seniors, but the Newton Centre team have protested on the grounds that one member of the West Newton boys is over the required age, and if this is found true, the games won by the West Newton team, in which the player protested took part, will be defaulted, and the Newton Centre team will be declared the winner. Stearns leads the league in the intermediates, and Upper Falls, with one defeat chalked up against them heads the Juniors. The members of the leaders in the three leagues will be presented jerseys by the Playground Commission. The final standing of the teams is as follows:

## THE IDEAL EXCURSION

Time does not lessen the populari-  
ty of the Boston-Gloucester excursion  
along the North Shore. Thousands  
of people take this trip many times  
during the season, and are always  
pleased. The scenery along the shore  
is famous for beauty, and the care  
to the comfort of its patrons is a  
noted feature of the company's man-  
agement.

## OVER HALF A CENTURY.

The Bryant & Stratton School,  
Boston.

Among the many local institutions  
which have contributed to the commercial  
progress of Boston during the past 25  
years, none stands out more prominently  
than the Bryant & Stratton Commercial  
School of Boston.

In its new building, the school is re-  
moved from all surrounding influences  
which might distract the minds of pupils  
from their studies. Within the past few  
weeks the extension of Arlington street  
has been in progress. When this is com-  
pleted the school building will be bounded  
by three streets, Boylston, Arlington and  
Providence, thus flooding every part of  
every school room with light and sun-  
shine. In these days when so many chil-  
dren are suffering from defective eye-  
sight, caused in the majority of cases by  
poorly lighted school buildings, this im-  
portant feature should not be overlooked  
by parents who have the physical welfare  
of their children at heart.

The school's record is its reference, and  
the very best possible guarantee of its  
ability to prepare earnest young men and  
women for responsible positions in the  
business world.

The school was organized in the early  
sixties by those pioneer business edu-  
cators, Messrs. Bryant & Stratton, and  
for the past 45 years has been conducted  
successfully by its present principal, Mr.  
H. E. Hubbard, keeping always in the  
foremost rank with the ever-progressive  
institutions of the country.

Its patronage comes to it unsolicited.  
It does not follow the practice common  
with many schools of sending solicitors  
from house to house seeking patronage.

The plan for the practice of business  
in which the individual teaching system  
is employed originated with this school.  
Each pupil has a special course of study  
planned out for him and carefully ad-  
justed to his personal requirements.  
This splendid system of combining study  
with practice enables pupils to advance  
in accordance with their ability and ap-  
plication, and graduate at any time when  
they have passed their requirements.

The demand from business houses for  
graduates of the school the past year has  
been the greatest in the school's history.

Its feature which makes the Bryant  
& Stratton School unique is the adher-  
ence to the calendar governing the regu-  
lar academic institutions. The sessions  
are from 9 to 2 daily with no attendance  
on Saturdays or evenings, or during the  
summer season.

# Crawford Ranges

One very remarkable fact in connection with Crawford Ranges is that nobody ever willingly changes from a Crawford to a range of any other make.

There must be a reason—we believe there are several. The Single Damper (patented), the scientific Cup-Joint Oven Flues that heat the oven in every part alike; the Ash Hod (patented), instead of the clumsy ash pan; these are some of the Crawford time and trouble savers.

If you will carefully examine and compare the Crawford with any or all other cooking ranges you will see why Crawford's do better work, with more comfort for the cook and less waste of time and money. Send for the illustrated pamphlet.

POLITICAL NOTES

### IMPROVEMENT ASSOCIATION MEET

The monthly meeting of the Nonantum Improvement Association was held Wednesday evening in the Guard Room of Station 2, and among the principal subjects before the meeting was the present condition of Laundry Brook, which has been an eye sore, as well as a possible breeding place for disease, in this section for some time.

Alderman John W. Murphy told the members that Street Commissioner Charles W. Ross would start work in cleaning out the brook within a short time. Following this discussion the other needs of the district were taken up and freely discussed by the members.

### MRS. CLARK DEAD

The death occurred last Tuesday of Mrs. Sophia A. Clark, widow of the late Peleg E. Clark, at the home of her daughter, Mrs. Fred Ballou Young, 41 Central avenue, Newtonville, where she had made her home during the past few years. Mrs. Clark was born in New Bedford 93 years ago, and before taking up her residence in Newtonville, lived for many years in Weston.

Mrs. Clark celebrated her 93rd birthday on April sixth last, up to which time she remained in excellent health. She had been failing but a short time when claimed by death. Mrs. Clark is survived by seven children, Frank K., William A., Harry, Everett, Mrs. Fred Ballou Young, Mrs. Lizzie Jane Barker and Miss Adelaide Clark, 20 grandchildren and 3 great grandchildren.

The funeral was held this afternoon from the home of her daughter.

### MUSIC OF THE ABORIGINES

Norwegian Explorers Secure Some New Phonographic Records in Northern Canada.

The explorers, Christian Leden and Harald Thaulow, have just returned to Christiania from an expedition to Northern Canada which was undertaken with the object of collecting phonographic records of the folk songs of the various Indian tribes and comparing them with those obtained in earlier expeditions to the Esquimaux with the view of establishing how far was their common origin.

The largest tribe visited was the Cree, which numbers over 20,000. Their chief, Montongik, was at first hostile, but, after a few presents of tobacco and glass beads and after having been told that the explorers had been sent by the king of Norway to make his tribe famous, he became more amenable to the wishes of the explorers.

They brought back with them a most interesting collection of films and records of Indian life and music. Leden will go in the fall to Greenland for further investigation in the spring of 1913 and a long final exploration of Northwest Canada which will extend for three years. He will visit tribes that have never been in contact with the whites, he says.

### Saved the Canvasbacks.

The last duck that we saved from starving to death by the local trolley employees, who caught and fed them last winter, was shipped to New York city recently, consigned to one of the many parks in that city.

Some time ago three canvasbacks were shipped, but the one that was sent recently was not strong enough, so it was kept here longer. When the lake was closed by the ice last winter many of these ducks were frozen to the ice and others became so far famished that they were unable to fly. The trolley men running between here and Branchport when they saw the birds in such a condition took them to the power house and fed them. The majority were freed after the ice broke, up, but the four largest were shipped to New York city.—Penn Yan Correspondence Rochester Union and Advertiser.

### Toll of the Icebergs.

The list of vessels battered or sunk by icebergs is a long one, and it is well to recall it at a time when all the world is thinking of the Titanic. Thus, to take an example or so at haphazard, in the spring of 1890 four steamers of the England-America route utterly vanished, and in 1899 ten steamers disappeared.

In 1908 the Mongolian was imprisoned for two days in the ice, but escaped; in 1909 the Lake Champlain, the Regulus, the Bonavista, and the Montrose were so battered by the floating ice, that each escaped calamity by a very narrow margin, while none can tell how many fishing smacks are yearly dashed to pieces by these towering, glassy crags.

### DENTIST WAS JOLLY SOUL

But He Had Been Celebrating, as Patient Found Out to His Sorrow.

Otis Harlan, the actor, has been going about with one lip looking like an old rubber overshoe, says the New York correspondent of the Cincinnati Times Star. It appears that for some time he had been intermittently bothered by an ache in one of his most safely anchored teeth. "It's an odd thing, though," says Harlan, "that ache used to disappear absolutely every time I walked up the steps of a dentist's office. I'm not pulling any old joke here. It would really go away. Then the dentist would pin back my face and get his right arm to the elbow inside my mouth, and grub around there with a discouraging air. Always he would emerge declaring that he could not find anything wrong with any of my teeth, and advise me to return the next time it worried me."

That happened several times. At last the tooth got to aching for fair. Harlan waited until his face began to swell slightly—enough so he could mark the spot with a cross and be certain of finding it afterward. Then he went into the nearest dentist's office. The dentist was a jolly soul—a very jolly soul. After Mr. Harlan sat down he became convinced that the dentist had probably been celebrating some little thing. He could isolate the scent of curacao and sauterne and the clover cocktail upon the dentist's breath. Then he had been eating cabbage, too. Harlan told him to hurry. The dentist fastened his forceps on the aching tooth.

"Uh," groaned Harlan. "Hoo! Uh, uh, uh! You've got hold of my lip."

"Thash all right, Mr. Harlan," said the dentist, smiling, vaguely. "Thash all right. Don't you let that worry you, Mr. Harlan. I got hold of the tooth, too."

### MURAT SHOWED HIS WISDOM

Waited for Napoleon to Give Him the Hand of His Youngest Sister, Caroline.

"I wish that some of my field marshals had taken the precaution not to marry when they were only sergeants," Napoleon is supposed to have grumbled, when he saw some of the ladies at his court. Murat, the dashing leader of cavalry at Marengo, did not make the mistake of his fellows, and waited for Bonaparte to give him the hand of his youngest sister, Caroline.

"With her he reigned over the Two Sicilies as Joachim I. Wishing to stand well with the queen, the bishop of Tarento gave her a birthday present of one of Simon Vostre's "Books of Hours," printed on vellum in 1498 by Pierre Pigoucheur of Paris and containing 21 fine large wood cuts. Recently this relic appeared in the library of the late Louisa Lady Ashburton at Sotheby's and realized \$225 (Sabin). It may, therefore, go to America, whither Murat and Caroline's son, Napoleon Achille, went and married a niece of Washington.—London Telegraph.

### Test of Friendship.

A member of the board of education who was present at the recent commencement exercises in Summer Avenue school, says the Newark News, heard James L. Hays relate an incident which defined the word "friend."

It is well known that Mr. Hays includes among his best friends the boys and girls of the schools. His happy faculty for gaining the confidence of the youngsters was responsible for his being within hearing when two juveniles were discussing friendship. Here is one coming citizen's opinion of a friend indeed, as the member of the board heard it:

"Say, Jimmie," said an urchin to his playmate, "tell me what is a friend."

"I think," replied his companion "that a friend is a feller what knows all about yer, and yet likes yer."

### Black Wolves Born in Captivity.

The population of the Columbia gardens zoo was increased by five the other day. A quintet of black wolves were born and Bess, the mother, was the proudest animal at the resort. Black wolves have become a rarity during the last few years.

Bess has a history. Several years ago a hunt was being made for female black wolves. An Indian boy on the Crow reservation caught Bess in a trap in the Big Horn Canyon. An Indian friend in Billings wrote for him to the management of the gardens and received an offer of \$50 for the animal. He accepted it. Since that time Bess has shown scruples against race suicide, and black wolves are not uncommon at the gardens.—Anaconda Standard.

### Degrees in Horse Trading.

Judge A. A. Adams, of the Indiana appellate court, says the Indianapolis Star, tells a story of a man who was a good horse trader, but through lack of mathematical education was unable to determine his per cent. of profits.

"This man," relates Judge Adams "made a good trade, and he was anxious to know his real per cent. of profit, so he consulted a school teacher."

"I bought a horse the other day for \$25 and sold him for \$175; now, what was my per cent. profit?" he asked the teacher.

"That," replied the teacher, "was not profit; it was larceny."

## ALDERMEN RESUME SESSIONS

Many Hearings at First Meeting After Summer Vacation

The board of aldermen met on Monday evening for the first time after the summer vacation. There was a large attendance of spectators as many hearings had been assigned for that evening. President Gray was in the chair and Aldermen Bomis, Blakemore, Cabot, Cox, Early, Heard, Higgins, Jones, Miller, Moore, Murphy, Sullivan and Williamson were also present.

The petitions of the Edison Company for pole locations on Lake avenue were opposed by a representative group of Newton Highlands gentlemen. Mr. C. H. Lingham headed the opposition and presented a long remonstrance and many letters from property owners on the street. Mr. Lingham believed the poles would be a serious detriment to the avenue, which is one of the beautiful streets of the city. Mr. E. E. Hills explained the situation and suggested several other ways by which the applicants for electricity might be reached. Ex-alderman G. H. Mellen spoke vigorously in opposition saying that the poles would be a disfigurement to the street and a detriment to property.

Mr. S. L. Eaton said that there was a pole in his back yard and he believed it feasible to serve the applicants in some such manner. The petition for poles on Regent street was favored by ex-alderman A. P. Carter, who spoke for Clara M. Holmes. Mr. Carter said that Mrs. Holmes had taken the house in the spring and made many improvements, including electric wiring, and these poles were necessary to reach the house. Other plans had been tested and there seemed no other way. At present she was using candles for light as there was no gas in the house. Mr. P. J. Burrage spoke for another estate on the street saying that it would soon require electric light. Mr. H. E. Copeland said he didn't want to be "tunny" but he didn't want so many poles in front of his house, although he was willing to have a pole placed in his back yard.

On the petition for poles on Pleasant street, ex-alderman A. H. Rolfe spoke in opposition, saying that the property of the Newton Associates which he represented, came to the street line and their tenants would be in close proximity to the poles and wires. As there was only one applicant for electricity it seemed hardly fair to burden their valuable property with this annoyance.

On the laying of a concrete sidewalk on Cherry street under the betterment act, Mr. Justin McCarthy spoke in favor saying that in wet weather it was impossible to keep the feet dry and in dry weather the pebbles made walking unpleasant. 95 per cent of the traffic, he said, was in the street. The conditions were deplorable and the neighborhood desired a substantial sidewalk.

Hearings on the laying out of Los Angeles and Allison streets under the betterment act brought out speakers of various nationalities, some of whom spoke broken and sometimes, unintelligible English. The first speaker was an Italian, whose remarks were illuminated by one sentence which everyone understood—to the effect that everyone kicked like hell. A representative of the Robert Shaw estate urged the city to accept the street. Mr. P. J. E. Lacroix told how teams had been stuck in mud to their hubs. Mr. E. O. Jenkinson said the street was in good condition in front of his place and he didn't see the need of work on the entire street. Mr. J. Poullet said he had lived there 24 years and was willing to do his share. Mrs. Spellman said they couldn't use the sidewalk in front of her place and that the doctor wouldn't come down the street in the winter time. Mr. Reuben Forknall said that these streets

were practically impassable at times and that the streets were used considerably more than formerly on account of the passageway to the Stearns school. A large majority of the residents were willing to pay the betterments necessary to improve the streets.

No one appeared at the hearing on the Edison petition for poles on Newtonville avenue, or on the petition of Mrs. A. W. Blakemore to keep gasoline on Bennington street. The latter petition was immediately granted.

The appointments of various election officers, which have already been printed in the Graphic, were confirmed.

The Mayor sent in communications recommending the widening of Pearl street, near Centre street and the rounding of the corner of Lexington and River streets. He also invited the aldermen to make the usual inspection of the streets and city property on next Saturday.

The city physician sent in a report on the physical condition of Thomas Dolan and John Prior, applicants for pensions, the Chief of Police made a favorable report on the proposed incorporation of the Elmer Co-operative Club Camp, the Street Commissioner submitted schedules of street sprinkling assessments and the Forest Commissioner submitted schedules of moth assessments. The Chief of Police also recommended the revocation of the liquor transportation permit of William Bailey.

Other communications filed were from the Middlesex and Boston St. Rwy. Co. relative to consolidation with the Lexington & Boston Co. from the Boston Elevated Co. submitting list of railway police officers, from the League of American Municipalities relative to convention at Buffalo, from F. M. Sherman, Tr., accepting award for land taken on Chestnut street, and from A. W. Robinson objecting to laying out of Waban Hill road.

Petition of Edward Collins to run an automobile for hire, was granted. These petitions were also received, Michael Cannon and John Prior for pensions, Everett C. Dodge for 6th class liquor license, G. F. McConnell and L. Lombardi for wagon licenses, R. W. Jameson for auto express license, Mary A. McGuire and S. N. Scullos for common victualer licenses, Frank Toscano for pool license, Max Franklin for a junk license, Frank Hawkins and Wm. R. Black for minors' licenses, Telephone company for relocation on Grant avenue for attachments on Bridge street, from the Edison Company for attachments on Bennington street, Aberdeen street and Bowers street, from John T. Alden for sewer in Fairmont avenue, from G. W. Langley for concrete sidewalk on Bourne street, from Bridget Dorsey and from James Dangelio to move buildings from Pearl and Centre streets to Hawthorne street, from the Telephone company for attachments on Fairmount avenue, Waldorf road and Dexter road, from Raffello Sciacarello for pool table license, Domenico Guzzi for liquor transportation permit, and August Uboyer for license for street band of 6 pieces.

Hearings on Sept. 23 were ordered on petitions of E. B. Bishop for the laying out of Bishopgate road and The Ledges road under the betterment act and a hearing on Oct. 7 on petition of A. D. Craig to locate a 25 H. P. steam boiler on Adams street. The petition of the N. & W. Gas Light Co. to open certain streets was granted. A recess was then taken and on re-assembling, on reports of committees \$15,231.28 was granted for city expenses and leave to withdraw granted.

## TENNIS TOURNAMENT

Open Tournament on Newton Centre Playground

The playground department in behalf of the Social Service and Playground League of Newton Centre, announces the opening of the Annual Fall Tournament for tomorrow, September 14, 1912. Mr. William H. Crafts, assistant master at the Mason School, and director of the Newton Centre Playground, will have general charge of the tourney, and entries may now be made with him. A fee of 25 cents must be paid at the time of the entry. Entries close on Saturday, September 14, at 5 P. M. Mr. Crafts may be found on the playground on Tuesday and Thursday afternoons and all day Saturdays, and at the Mason School. As usual the money received for entry fees will be used for the purchase of tennis balls for use during the tournament, and at the close will be divided between the winners and the runner ups. As in former years three groups are arranged, but a change has been made governing the winning of the trophies. In order to finally own the cups it will now be necessary to win the cup twice.

Make your entries at once.

### Class A Tournament

Girls' Challenge Cup. Open to any girl resident of Newton Centre. Cup to be won twice.

### Class B Tournament

Boys' Challenge Cup. Open to all boys who are residents of Newton Centre. Age limit 20 years. Cup to be won twice.

### Class C Tournament

Open Challenge Tournament. Open to all who have used the Newton Centre Courts during the summer 1912. Cup to be won twice. The cups will be on exhibition at the Noble Pharmacy in Newton Centre.

C. T. Switzler	42	128

the Edison Co. on matter of poles on Lowell avenue and Prescott street. The order for concrete sidewalk under the betterment act on the west side of Cherry street was passed after the situation in regard to the River street cemetery had been explained. The Edison Co. was also given a location for poles on Regent street, after the matter had been favored by Aldermen Moore, Williamson and Higgins.

The City Engineer was asked to report on the cost of rounding the corners of Chestnut and Beacon streets, Waban and the board adjourned at 9.55.

## FOOTBALL

Candidates for High School Team Begin Work

Newton High School gridiron warriors to the number of thirty responded to the first call for practice last Monday afternoon on Claffin Field, Newtonville. The team this year will be led by Capt. Charles Wilbur, who played a snappy game at end last year, and Coach Alfred Dickinson will round the men into shape.

As the first game of the season will not be played until Sept. 26, several more candidates for positions will report before that time. Although Whitney, Tucker, McNeil, Conroy, Clark and Nutter, members of last year's eleven will not be found in the lineup this season, Coach Dickinson has several able substitutes to fill in the gap caused by the graduation of these players.

Capt. Wilbur will again hold down his old position at end, and Roquemore, who was selected as All Inter-scholastic tackle last year, will again be found in that position. Charles Brady, who with Roquemore as a side partner last year, is expected to play a slashing game at guard this year. Ralph Hyatt, also of last year's team, is out for quarterback. Bentley and Van Buskirk, who proved good substitutes last year are confident that they will hold a regular berth of this year's eleven.

A rather stiff schedule has been arranged, including two league games, the first to be played with Cambridge Latin on Oct. 25, and the other with Brookline on Nov. 15, both games to be played at Newtonville. The annual Thanksgiving Day game with Brookline will be played as usual on Claffin Field. The schedule is as follows:—

Sept. 26—Needham H. S. at Newtonville.  
Oct. 2—Winthrop H. S. at Newtonville.  
Oct. 5—Wellesley H. S. at Wellesley.  
Oct. 8—Medford H. S. at Newtonville.  
Oct. 12—Boston Latin at Newtonville.  
Oct. 18—Milton H. S. at Newtonville.  
Oct. 25—Cambridge Latin at Newtonville (league game).  
Oct. 29—M. I. T. '16, at Newtonville.  
Nov. 2—Somerville H. S. at Somerville.  
Nov. 9—Waltham H. S. at Waltham.  
Nov. 15—Brookline H. S. at Newtonville (league game).  
Nov. 23—Rindge M. T. S. at Newtonville.  
Nov. 28—Brookline H. S. at Newtonville.

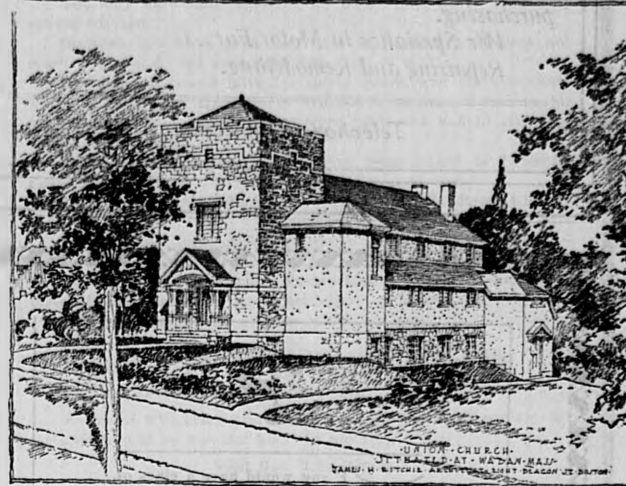

### POLITICAL NOTES

Mr. Daniel J. Daly of Brookline, a candidate for the Democratic nomination for Congress in this district, spoke on Monday night at a meeting of the Newton Democratic Club in Eagle Hall. Former Congressman John J. Mitchell of Marlboro is also a candidate for this nomination. It is said that Dr. G. M. Winslow of Lasell Seminary will be a progressive candidate for representative in this city, and that ex-alderman George H. Mellen of Newton Highlands will be a candidate for the state senate. The candidacies of Mr. Norman Marshall of West Newton and Mr. George W. Taylor of Newtonville for representative have been endorsed by the Newton progressive party of which Mr. Marshall is chairman, Mr. C. S. Luttweiler is secretary and Mr. James H. Rand is treasurer.

The Nonantum Boys have met and defeated the strong Eagles of Newton Centre and the St. Mary's of Newton Upper Falls, beating them each two games, while these teams have no defeat against the Boys' Club. The Nonantum Boys' Club not only claim the championship of Newton but will meet any amateur team in New England for the State Championship. The team has played 21 games this year and have only lost two, one game going 14 innings before it was finally settled.

The team is managed by Edward Lamport, who has succeeded in having the team stand high up in rank, and is captained by Edward Cody, one of the hardest hitters on the team.

Y., where the burial was in the family lot in Greenwood Cemetery.

## DON'T BE CREATURE OF HABIT

It is Better to Make Some Blunders Than to Oscillate Always in a Groove.

It is a good plan to break one's habits occasionally, to see that it can still be done. To follow even the best of habits too closely tends to ossify existence. It makes one stiff. It narrows his tastes. The retired farmer who still gets up before daylight every morning, so as to get an early start waiting for bedtime, would be much better off if during the stress of life he had broken his habit occasionally and slept until nine o'clock.

The city man who lets the street, the flat, the office grind become an unbearable habit loses all his elasticity.

Recently a brother and sister were found in an eastern state who had lived on the same farm for sixty years, and during that time had not been ten miles away from home.

For thirty years the woman had not been to town, five miles away, and for 15 years, although well and strong, she had not been so far from the house as the branch in their bottom field.

Habits of life like this become prison chains. One must do some things the same way or nearly the same to learn to do them well, but once having acquired the skill of repetition, it is well to break away and do it some other way. It is better to make some blunders and get some knocks experimenting than to oscillate in a groove until freedom ends.—Collier's Weekly.

## PAYING FOR HIS IMPATIENCE

Next Time It is Likely That Patrick Devlin Will Wait for the Jury's Decision.

If Patrick Devlin of Lawrence, Mass., were not such an impatient man he would be free today. Instead he is locked up at the state farm, Bridgewater, for an indefinite period.

Patrick was on trial at Salem before a jury, charged with drunkenness. All the evidence was in and the jury retired. After a while Patrick became seditious. The longer the jury stayed out the more impatient he became.

Finally he arose and said: "Your honor, I would like to change my plea from not guilty to guilty."

The change was noted by the clerk. Suddenly the door opened and the jury trooped back into court.

"What say you, Mr. Foreman and gentlemen of the jury, is the defendant guilty or not guilty?" asked the clerk.

"Not guilty!" replied the foreman. Patrick was crestfallen. Having changed his plea, he had to take his medicine. Although the jury said that he was not drunk, Patrick said that he was drunk, and so the court decided that he ought to know better than the jury.

## Mysterious Cave Dwellers.

The sentiment that accompanies the common desire for the preservation of historical relics of the American Indians, who are fast passing away or being merged into the civilization of a new century, is now being manifested in reference to the preservation of the home of the cliff-dwelling Indians, whose history is as mysterious and unrecorded as that of the lost tribes of Israel. Various theories have been propounded regarding the cliff dwellers. Legends have it that they are the descendants of Montezuma. The popular theory is that the Indians began by living in caves, and then, with the natural ingenuity of man, proceeded to excavate caves high up in the side of the cliffs, where they might be safeguarded from attacks and where their supremacy would go unchallenged. Americans know very little of the history of the cliff dwellers or of the place where they formerly lived. If the Indians know, they do not tell.—Leslie's.

## All Were Once Slang.

If we had never allowed slang to legitimize itself in orthodox language where should we be today? A reference to old slang dictionaries gives the answer. Take Grose's, published at the end of the eighteenth century—the "Dictionary of the Vulgar Tongue," by the first lexicographer who recognized the word "slang" itself. We find him classing under it such words as bay window, bedizened, bet, bluster, budget, brogue, capon, grouse, churl, cox, cobbler, cur, domineer, eyesore, flabby, flog, flout, foundling, fuss, gung mullinger, messmate, slump, saunter, sham, rascal, trip and yelp. Wait until next the anti-slang purist uses one of these words and then confound him by reference to Grose.

## Said No, But Was Nice About It.

At a meeting of business men a discussion was started regarding a banker who has the reputation for hard bargaining, close fistiness and invariably getting his pound of flesh.

"Oh, well," said one man, "he isn't so bad. I went to him to get a loan of \$5,000 and he treated me very courteously."

"Did he lend you the money?" was asked.

"No," was the reply, "he didn't. But he hesitated a minute before he refused."

## The Family Trouble.

"Why doesn't that house of yours rent?"

"For the same reason I myself don't do a lot of things."

"What reason is that?"

"My wife won't let me."

## RIGHT PREVAILS IN THE END

Victory Sure, Though Its Coming May Be Delayed and Its Pathway Long Dark.

Await the issue. In all battles, if you await the issue, each fighter has prospered according to his right. He right and his might, at the close of the account, were one and the same. He has fought with all his might and in exact proportion to all his right he has prevailed. His very death is no victory over him. He dies, indeed; but his work lives, very truly lives. A heroic Wallace, quartered on the scaffold, cannot hinder that his Scotland become, one day, a part of England; but he does hinder that it become, on tyrannous unfair terms, a part of it; commands still, as with a god's voice, from his old Valhalla and Temple of the Brave, that there be a just, real union, as of brother and brother, not a false and merely semblant one as of slave and master. If the union with England be in fact one of Scotland's chief blessings, we thank Wallace withal that it was not the chief curse. Scotland is not Ireland; no, because brave men rose there and said:

"Behold, ye must not tread us down like slaves; and ye shall not, and cannot!"

Fight on, thou grave, true heart, and falter not, through dark fortune and through bright. The cause thou fightest for, so far as it is true, no further, yet precisely so far, is very sure of victory. The falsehood alone of it will be conquered, will be abolished, as it ought to be; but the truth of it is part of Nature's own laws, co-operates with the world's eternal tendencies, and cannot be conquered.—Thomas Carlyle.

## DROPPING THE ENGLISH "H."

Cockney Pronunciation Left the Traveller Puzzled Until He Interviewed the Captain.

In the days when packet ships ran between New York and London a youthful passenger asked the English mate of the Christina what there was in the leather tubing around the gunwales of the lifeboats.

"Hafr, sir," he answered.

"Is there anything peculiarly buoyant about hafr?" asked the American youth.

"If you don't know that, you don't know much," replied the mate, with a look of contempt, as he moved to another part of the ship.

The youth was humiliated, and a few days later asked the captain why hafr was so buoyant in water. That authority replied that he didn't know that it was, and inquired why the youth thought it was so.

"Why, sir, your mate told me that there was hafr in the tubes of the lifeboats to make them float when capsize."

"Ah!" answered the captain, laughing. "He's a Cockney; he means air."

**Why the Football Squad Laughed.**  
Those who were there when this incident happened some twelve years ago never tire of telling the following yarn on I. I. Cammack, assistant superintendent of schools:

Professor Cammack was vice principal of the Central high school in 1900 or thereabouts and the athletic movement had led to the formation of a football squad. The ambitious were led to one of the study halls on a Friday afternoon, where Professor Cammack addressed them after this fashion:

"I am glad to see you boys here and pleased to notice that you are taking an interest in athletics. I think it is a fine thing to be interested in healthful sports. Football will give you confidence. We need boys and men of confidence in this country. In fact I want to make confidence men out of all of you."

Perhaps the genial professor is wondering to this day why the football squad broke into loud laughter.—Kansas City Journal.

## Hotel on an Obelisk.

We recently published the account of an excursion made by one of our reporters to the top of the Sugar Loaf, the gigantic obelisk, 300 meters in height, that overlooks the entrance of our beautiful bay. A Brazilian company is going to install on top of this almost inaccessible block of granite a handsomely equipped hotel, connected with one of the hills of Rio de Janeiro by an aerial railroad. The work will be pushed in all haste, and this marvelous height, bathed by the refreshing breezes of the open sea should surely attract tourists from America and Europe.—Gazette de Noticias.

## Latin and Saxon.

To the southerner divinity consists in the intensity and balance of all faculties, and the beauty of the flesh is part of it. We are apt to be unjust to his view of life because we know it best by its evil effects upon the northern mind, to which it is often poison. An Italianized Englishman is often a devil incarnate, because the southern view of life to him means only license. He adopts it without its conscience, and it appeals to his appetites rather than to his imagination.

## How to Begin.

"What is the first step toward remedying the discontent of the masses?" "The first step," replied the energetic campaigner, "is to get out and make speeches to prove to them how discontented they are."—Washington Star.

## MAN CANNOT LIE ABOUT FISH

Nothing One Can Say on the Subject Is Too Weird to Be Duplicated in Actual Experience.

Everything is possible where fishing is concerned. This talk about fishermen outraging the truth or departing from veracity is bosh, tommyrot and nonsense. A man may think he can manufacture a lie about fish, but it is a mistake. Nothing you can say on the subject is too weird to be duplicated by actual experience. There are fish which weigh 3,000 pounds, and there are other fish who speak French and eat with an oyster fork.

Philip C. Kennedy, the engineer, who knows all there is to know about fish, heard a man ridiculing a story that bass could be caught in the muddy water of the Potomac river by a man striking an oar on the surface of the stream and watching the fish leap merrily into the boat. Then the engineer told this:

"In the hot and shimmering summer of 1897 I was with a corps of engineers making surveys of the Shenandoah river which unites with the Potomac at Harper's Ferry. One party lived in a cabin on a large flat-bottomed boat, and the shadow cast by this boat attracted fish in large quantities. The bass, particularly, were so filled with curiosity that in jumping up into the air for the purpose of investigation they fell over the sides of the boat, and we picked them up at will."

All of which indicates the time wasted by gentlemen who have carefully figured out that they have to use a hook and line. As a means of sport shadow fishing has shadow boxing backed off the boards.—Popular Magazine.

## Separate the Sexes.

The question was asked in Wall street the other day whether men and women clerks are to be separated from one another. The reason was that in the new offices of the Rock Island in the new Bankers' Trust company building such is the case. The women clerks, the librarians and the stenographers are on one floor and the officials, the lawyers and accountants are on another floor. No special reason for the arrangement has been given, and now many women are wondering whether the same system is to be followed throughout the financial district. It is whispered, however, that the women do better work if they are left entirely alone.—New York Press.

## Raw or Pasteurized Milk

## Which Is the Safer?

You insure your life against the time when accident or sickness may occur.

You buy safe milk against the time when other milk may spread disease.

Because you have been fortunate in keeping well does not mean that you do not need safe milk right now.

One man delivered milk for thirty years, and his customers were safe until an epidemic of typhoid fever was traced to his supply, and 295 of his customers were made sick and 10 died. He delivered raw milk.

An epidemic of disease has never been traced to Perfectly Pasteurized Milk.

## GALE-TUCKER

The wedding of Miss Marion E. Tucker and Mr. Carl Ball Gale of Lee, Mass., took place on Wednesday afternoon at the home of the bride's mother, Mrs. William H. Tucker on Judkins street, Newtonville. The ceremony was performed at four o'clock by Rev. Harrie R. Chamberlin of the Immanuel Baptist Church of Newton. The bride wore white champagne with Duchesse lace and was accompanied by Miss Wilma Mayberry of Boston, as maid of honor, wearing green crepe de chine, veiled with green chiffon and by Miss Ruth Beers of Fort Wayne, Ind., and Miss Juliet S. Smith of Lee, Mass., as bridesmaids, and gowned in yellow messaline, veiled with yellow chiffon. Mr. Clarence N. Durant of Lee, was the best man and Messrs. Leonard D. Pratt of Lynn, Robinson W. Barstow of Lee and Howard H. Tucker of Newtonville, the last being a brother of the bride, were the ushers.

A reception followed until six o'clock. Mr. and Mrs. Gale being assisted by Mrs. W. H. Tucker, Mr. and Mrs. Bennet T. Gale, Miss Mayberry, Miss Smith, Miss Beers, Mr. Durant and Mr. H. H. Tucker. The house was artistically decorated, the dining room being in yellow and green, with palms and asters in other rooms as well. After a wedding trip to Atlantic City, Mr. and Mrs. Gale will make their home at 28 Reed street, Pittsfield, Mass., where they will be at home after December first. Both the bride and groom are college graduates, the bride from Vassar in 1916 and the groom from Williams in 1916.

## BUFFUM-MOORE

The marriage of Mrs. Ellen M. Moore, one of the best known ladies of Newton Highlands and Mr. Charles S. Buffum of Salem, took place last Saturday at the home of the bride on Meredith avenue. The ceremony was performed by Rev. George G. Phipps and the bride was attended by her granddaughter, Miss Nina Moore and by Miss Laura Thompson, both of Newton Highlands. Mr. and Mrs. Buffum will reside at Salem.

**PARK THEATRE**—Say, you remember Rose Stahl, don't you? Of course, she is the girl who was Patricia O'Brien in "The Chorus Lady," which we saw so many times at the Park Theatre. Well this same Rose Stahl is back at the same Park Theatre again, only she has a new friend with her. The name of this new girl is "Maggie Pepper," and, believe me, she fits the name, except when she finds she is in love—but then of course we are all different when it comes to that. And if you laughed with Patricia, you can be sure that there is a giggle coming to you all through "Maggie Pepper," except of course when she is fighting her hard-fought for herself and her little niece and then you'd best have your lace trimmed kerchief all ready because you just won't be able to keep back the briny tears. When Miss Stahl uses slang she is inimitable, and when the big scene comes with its touch of melodrama she just simply holds the entire stage with her dominating personality. I tell you no girl ought to miss seeing this piece—it's a hilly clear through and Miss Stahl's company don't miss a point from beginning to end.

**B. F. KEITH'S THEATRE**—One of the greatest bills of the season, with practically every act new to Boston, is promised for B. F. Keith's Theatre next week. With Joseph Hart's latest and best production, "Honor Among Thieves," the Great Jungman Troupe, and Robbie Gordon, the posing Venus, the week will be exceptionally notable in novelties. This comedy tells a most interesting and amusing story of life among the crooks and thieves of New York City. Robbie Gordon is one of the most beautiful young women on the stage. She will present a startling series of studies in living marble, including "The Lion's Bride." The Great Jungman troupe is a fine company of high wire artists and acrobats, and others will be Van and Schenck in a novel act; Mullen and Cogman, two funny comedians; Puck and Lewis, a clever boy and girl; Will Setron, the double-voiced vocalist, and others yet to be announced.

**BOSTON THEATRE**—Boston has capitulated to Wagenhals & Kemper's production "The Greyhound," the great modern drama of life on an ocean liner. Every newspaper in Boston welcomed the play of thrills and laughs and gave it the highest praise. The Transcript over the signature of its distinguished critic, Mr. Parker, says: "The Greyhound" reaches into the higher realms of melodrama and is portrayed by modernized acting which is right up-to-the-minute." The Herald says: "It is up-to-date drama, full of exciting incidents and played with great spirit." The play is in four acts and each one of them affords opportunities for elaborate and unconventional stage settings. There are fifty people in the cast.

## GOV. LONG'S CHOICE

By John D. Long in Zion's Herald

I cannot vote for Wilson because he is the candidate of a party which does not represent, as does the Republican party, the policies, traditions and principles which I regard as best promotive of our material welfare, and because he is not content with modifying our tariff system as the wisely-progressive opinion of the day requires, but would altogether overthrow it and cripple our industries, impair the wages of labor and bring back the disaster and blight to which the Wilson bill, in the last Democratic administration, subjected the country.

I cannot vote for Roosevelt because his election would violate the unwritten but now practically constitutional principle that no President shall have more than two terms of office. Washington and Jefferson saw the danger of a perpetuation of executive power, and set the example of refusal to accept a third term. True to this principle, the country refused a third term to its idol, Gen. Grant. Roosevelt committed himself to this principle, and only four years ago solemnly declared that it would be a calamity for him to serve a third term.

I cannot vote for him because in this respect he has not kept his word, but has broken faith with the people. I cannot vote for him because I regard his treatment of President Taft as unfair, selfish, and violative of the obligations of their mutual relations.

I cannot vote for him because I believe he is striking at the very foundations of our constitutional government by his theory of the recall of judicial officers by popular vote, thus making our courts subservient to popular caprice; also by his attack on our representative system of government and legislation, substituting for it the unrestrained and irresponsible mob rule of ancient Athens. I regard these notions as destructive of our present constitutional safeguards.

The founders of our nation provided these safeguards with great wisdom, and in the light of historic precedents. Under our present system our laws and constitutions are made by representatives chosen by the people and then assembled in open and public debate, and thus responsible for their acts to public opinion. To impair this system is a step not toward reform, but toward revolution and chaos.

I cannot vote for Roosevelt because I believe that, though he may in his exuberance be unconscious of it, he is actuated by a spirit of self-aggrandizement, and is using his great power of attracting public applause only to secure his own return to political power. His cry against bosses is wonderfully funny in view of the fact that there is no such colossal boss as himself. Everything is made subservient to his personal dictation. He preaches effectively the commonplaces of good morals and virtuous conduct, but there is not an item among them in which Taft is not as good if not a better example. Everybody who thinks a moment knows that if Roosevelt were elected nothing would come to any man in the way of cheaper cost of living, better wages or more comforts of life. Indeed, the impairment of the delicate confidences of business which his vagaries tend to unsettle would be more than likely to have the opposite effect. No movements for civic righteousness, for good morals, for purer politics, would be a bit better advanced. It would be merely a new set of bosses, a new machine.

Of course, Teddy is a great man. He is the only one who can lie in state without being dead.

—Norumbega Park Closing

After the most prosperous and successful season in the sixteen that Norumbega Park has been catering to the public this delightful summer resort will close for this year on Sunday night, Sept. 15. There will be a grand concert in the open air theatre on this evening and although the park will be formally closed the management will, following the usual custom, keep the park open indefinitely for those who wish to visit the Zoological Garden or view the glorious autumnal changes in the landscape gardening. The boathouse will also keep open on all fair days to accommodate those who wish to use the extensive boat and canoe service. The electric launch trips up the river will also continue for some days to come. All this week in the open air theatre there is a vaudeville programme that surpasses anything presented here this season.

**LODGES**

Grand Master John W. Roberts of the Grand Lodge of Massachusetts, I. O. O. F., has appointed Bro. Henry L. Bates of Auburndale, Bro. Charles M. Potter of West Newton and Bro. Charles W. Fewkes of Newton Highlands, as deputy grand masters in this vicinity. Bro. Frank O. Morgan of Brookline is the deputy grand master for Newton and Waban Lodges.

Miss M. Violet, instructor of piano-forte, whose card appears in this issue, began serious study of music with the late Charles I. Capen, and was under his direction for four years studying piano-forte playing, theory and harmony. For the past nine years she has been an esteemed pupil of Mr. Arthur Foote and her course with him has been most thorough and exacting.

Miss White has managed many successful concerts and has been the means of bringing some distinguished musical artists to her home town, but it is as a teacher that she is most actively engaged, for her training and natural endowment for that line of work is out of the common and a long list of stars show evidence of great teaching ability.

**HATCH—MOIR**

Alderman Edward Palmer Hatch and Mrs. Isabelle Jackson Moir were married last Wednesday night at a quiet home wedding held at the home of the bride on Mill street, Newtonville. The ceremony was performed at eight o'clock in the presence of the immediate family by Rev. Richard T. Loring, rector of St. John's Episcopal church, where the groom is a vestryman. The bride, who was unattended, was gown in white crepe with point and Duchesse lace garniture. Mr. Stephen Winsor Holmes of Newton was the best man.

Mr. and Mrs. Hatch will take an automobile trip thru the White Mountains, and will then make their home at 275 Mill street, Newtonville.

Mr. Hatch is well known in this city, having served in the city government several years and is now serving a two year term as alderman at large. He is well known in financial circles, being vice president of the Lincoln Trust Co. of Boston and a former president of the West Newton National Bank. He is a member of the Newton Club and prominent in the Masonic fraternity. Mrs. Hatch is a member of the well known Newton family of Jacksons and has resided here all her life.

**NEWTONVILLE IMPROVEMENT ASSOCIATION**

The regular monthly meeting of the Executive Committee of the Newtonville Improvement Association was held Thursday evening, September 6. Several matters of interest to Newtonville were discussed and referred to members for further investigation, among them being the new Grand Trunk Railroad charter and location.

The Secretary was instructed to notify the officers of the Silver Lake Company that this Committee wished to record its appreciation of the improvements made by the substantial and artistic new fence recently placed around their mill property on Watertown and Nevada streets.

A fund was appropriated to pay for two new bulletin boards to be placed in Newtonville Square and the matter was referred to Mr. Alfred M. Russell with authority to arrange for putting the boards in suitable places.

It was voted that the Association subscribe for "The American City," a monthly magazine devoted to the physical improvement of our cities, copies to be placed in the reading room of the Newtonville Branch of the Public Library for the use of the public.

Regular monthly meetings of the Executive Committee are to be held at homes of members of the committee Thursday evenings at 8 o'clock, as follows:

For President  
**WILLIAM H. TAFT**

Our Newtonville friends are wak-  
ing up to the danger announced last  
summer in the Graphic, of the possi-  
bility of a railroad embankment  
and track right across that pleasant  
village. The Grand Trunk has the  
right to do this now, and probably  
will do so if the expense is not too  
great. It remains for the land own-  
ers in Newtonville to settle this ques-  
tion for themselves. The railroad  
can, of course, take the property by  
eminent domain, but this is usually  
such an expensive method, that it  
probably would be used as little as  
possible. If the land owners can  
force the railroad to take this course,  
it may create a situation which will  
prevent the construction of the line.  
While the act, granting the company  
the right of way across Newton, re-  
quires a quasi approval of the route  
by the aldermen, its disapproval can  
be vetoed by the railroad commission-  
ers, so that the action of the local au-  
thorities is of small consequence. As  
one member of the railroad commis-  
sion, Mr. George W. Bishop, resides  
in Newtonville, it can be assumed  
that his neighbors will soon let him  
know what they think of the situa-  
tion.

The race for the political nomina-  
tions of both parties is gradually be-  
coming warm and ought to be fairly  
hot when the flag falls on September  
24th. Congressman Weeks is being  
opposed in the new thirteenth dis-  
trict by Mr. R. H. Long of Framing-  
ham, who has sent out a circular full  
of the usual "hot air." I shall under-  
take to discuss this circular in the  
next issue of the Graphic. There is  
also a warm contest in this district  
for the Democratic nomination for  
Congress, between Mr. Mitchell of  
Marlboro and Mr. Daley of Brookline,  
the rumor of a Bull Moose candidate  
making the Democrats sit up and  
take notice.

There should be no question as to  
the advisability of widening Pearl  
street, especially at its junction with  
Centre street. The possibility of the  
erection of another business building  
to the street line should demand  
prompt action, either by immediate  
widening or by the establishment of  
a building line.

Some idea of the cosmopolitan char-  
acter of the Nonantum section was  
gathered at the last meeting of the  
aldermen when representatives of the  
Italian, French, Hebrew, Irish and  
American races spoke in favor of the  
acceptance of one street.

Friday, the thirteenth.

#### CITY HALL

Paymaster Harold Adams has re-  
turned to his desk, having fully re-  
covered from his recent illness.  
The board of aldermen will be the  
guests tomorrow of Mayor Hatfield  
and will visit various portions of the  
city to inspect work which has been  
done and which is under contempla-  
tion.

**CASTLE SQUARE THEATRE.**—  
One of the best known of recent  
American dramas will be given at the  
Castle Square Theatre next week by  
John Craig. Its title is "The Third  
Degree," and it is the work of Charles  
Kleins, author of "The Lion and the  
Mouse," "The Music Master," "Mag-  
gie Pepper" and other plays that have  
been among the greatest of popular  
successes. The plot of "The Third  
Degree" is taken from actual life as  
it exists in an American city of today,  
and its characters are drawn from  
real human beings. The beginning of  
"The Third Degree" presents a young  
husband and wife, the former a man  
of wealth and position, and the latter  
once a factory girl and a waitress in  
a cheap restaurant. The husband is  
charged on meagre suspicion with  
murder, and it becomes the mission  
of the wife to establish his innocence.  
The police seek to prove his guilt, and  
the wife prevails upon a famous law-  
yer to undertake the defence of her  
husband. The inquisitors "Third De-  
gree" of which so much has been writ-  
ten in recent years in the magazines  
and the newspapers, play a large part  
in the progress and evolution of the  
plot. Everybody who has seen it has  
proclaimed the success of "The Third  
Degree." It passes an abundance of  
humor that lightens its more serious  
moments, and at the Castle Square it  
will be acted by a highly satisfactory  
cast. The lawyer who succeeds in ac-  
quitting Howard Jeffries will be ac-  
tued with skill by John Craig, and he  
may be expected to give as effective  
an impersonation as it will be remem-  
bered he gave of the business man in  
"The Lion and the Mouse." Mary  
Young will appear as Annie Jeffries,  
the young wife who does so much to  
save her husband, and the other roles  
will be in the capable charge of the  
members of Mr. Craig's permanent  
Castle Square Company.

## NEWTON SCHOOLS OPEN

Over 7000 Children Will Be Educated This Year

The Newton schools opened for the  
season last Monday and 6749 pupils  
were registered during the week.  
From past experience fully 450 more  
will enter within the next few weeks,  
so that about 7200 children will be  
enrolled for the year's work. Of this  
number 1745 are in the two high  
schools, a much larger proportion  
than that of any other city, about  
4875 are in the grades and about 580  
in the kindergartens.

The following changes have been  
made in the teaching force:

#### Newton High School

New Teachers: Ken C. Bryan, Ma-  
chine Shop Practice; Miss Delpha  
Coolidge, French; Miss Evelyn I. Per-  
nald, Special Assistant in Science;  
Miss Isabella H. Hilditch, History;  
Miss Ruth Mulligan, Special Assistant  
in English; Mr. George E. Pear-  
son, History; Miss Marion B. Story,  
French.

Returned from Sabbatical Year: Es-  
ther Bailey, German; Minerva E. Le-  
land, Mathematics.

Transfer: E. Mabelle Albee, Eng-  
lish, to Mason School, VIII grade;  
Lillian M. Russell, Mason VIII, to

## THE IDEAL EXCURSION

Time does not lessen the popularity of the Boston-Gloucester excursion along the North Shore. Thousands of people take this trip many times during the season, and are always pleased. The scenery along the shore is famous for beauty, and the care to the comfort of its patrons is a noted feature of the company's management.

## HIS THEORIES ON WEATHER

Algernon Explains What May Be Expected After the Earth Gets "Hot Up."

"Yo' cayn' 'speak' no standin' weider, sah," said Algernon, as Mr. Topfloor came in drenched after an experience with the weather the other evening. "I'll a'er de full moon in May."

"So it seems," replied Mr. Topfloor as dryly as he could under the circumstances.

"Wile de's all dea flyin' clouds round, der's libble to be win' an' rain sah. Sometime de win' git behin' a bunch ob dem clouds an' blow 'em all avah, an' eider dey tu'ns to rain, or else it jes' win'. But a'er de full moon in May de yarh git het up—"

"By what?" asked Mr. Topfloor shivering.

"By de sun, sah. It's mos in its elemen' by dat time, 'way 'roun by de quator. Down Souf, w're I comes 'om, dey says w'en de sun git 'roun' dere it complete a cycle. 'Wot's a cycle,' sah? Well, dis de way I 'splain it: 'Wen I takes de elebater up an' den takes it down, dat complete de cycle. But, sah," as the dripping Mr. Topfloor stepped off the elevator, "ef yo' libes, an' I hopes yo' may, I gwine tell yo' mo' 'bout dat."

## GREAT AUK'S VALUABLE EGG

One Recently Sold at Auction in London for \$1,500—Bird Is Now Extinct.

An egg of the great auk, or garefowl, a bird now extinct, was sold at auction in London for a sum equivalent to \$1,500.

Not all great auk's eggs are alike. In length they vary from four and one-eighth inches to five inches. The greater number found have a white ground, but others are of various shades of buff. In some cases the markings are spots, shown in blotches or lines.

It is said that no living auk has been seen since 1844. The birds were exterminated by the ruthless traffic in their eggs and skins, although their numbers, especially on the Newfoundland and Labrador coasts, where once they were very numerous, were greatly reduced by their wholesale slaughter for food.

The most remarkable characteristic of the great auk was its inability to fly. Its wings were scarcely more than fins, which aided the bird in swimming.

## Doubtful Success.

Much excitement was caused a few weeks ago in Calcutta by a particularly insubstantial and evil-smelling tank suddenly changing to a perfumed one, giving off the refreshing smell of lemon.

To the natives this portended the coming of a great Indian goddess, who would arise out of the water; so the pilgrims gathered in thousands to have their sins washed away and diseases cured. A guileless youth also had been selling this holy water at five rupees per bottle, which is equal to 6s. 8d.

But soon afterward it was discovered that a large consignment of essential oils, belonging to a firm of perfumers close by, had got smashed, and afterward leaked into the tank. The natives now feel rather uncomfortable at the thought of having drunk the dirty water. It is to be hoped that they will know the smell of holy water next time they meet near a perfumer's work.—Answers.

## Woman Boss of Lumbermen.

Mrs. Mary Gregory of Damariscotta, Me., is the first woman to have charge of a gang of lumbermen. She is the mother of six children and until a few months ago did all the work of cooking and caring for a gang of 22 woodsmen besides her own family. Finding that she had still many idle hours on her hands, she applied for work as woodchopper. She soon proved herself such an expert chopper and sawyer that a few weeks ago she pitted herself against the best two men of the camp. She not only did more work than either of them, but more than both together. It was soon after this that the owner of the lumber camps appointed her boss of one of his largest gangs of lumbermen.

## Sculptor's Rise to Fame.

August Rodin, president of the Society of Sculptors and Painters of Paris, which recently sent a traveling collection to this country, is of peasant stock and has been compelled to fight the academic art schools every inch of the way to his present place as the most famous contemporary sculptor. He studied drawing in a private school, but was unable to gain admission to the Ecole des Beaux Arts because of his unacademic methods. He worked away in a dingy apology for a studio in a stable. After years of trial and struggle his "Age of Bronze" was finally accepted by the salon, leading eventually to fame.

## To Open New Motor Paradise.

Motorists have a great treat in store three years hence, when one of the most beautiful Alpine routes—that connecting the Lake of Geneva with the Mediterranean—will be open. The traffic thus created will, moreover, be of the greatest benefit in many of the regions traversed, the present poverty and solitude of which will be considerably relieved by the new activity introduced in their midst. Some of them are already pathetically forward to a golden era.—The Q.

## CHURCH DEDICATED

An Interesting Week for Members of the Union Church at Waban

From the date of the first service in Waban Hall in December of 1904 the members of the Union Church have had in mind the acquisition of a church building of their own, and last Sunday had the satisfaction of worshipping in a fine church which is an ornament to the centre of the village.

The new church is an imposing structure of native stone and cement and was built at a cost of \$25,500.

The vestry is in the basement and is to be used for the Sunday School work giving nine class rooms and a kindergarten room.

The vestry has a good sized platform with a room on either side and will be used for entertainments and social purposes and in this room it will be possible to seat 250 at such times.

In the basement and under the tower is the kitchen fully equipped with gas ranges and all conveniences and already stocked with dishes by the Ladies Circle.

The auditorium has a seating capacity of 210 and provisions have been made for the construction of a gallery to seat 75.

The pastor's study and choir room are on this floor and both are well located light rooms and furnished in good taste.

The choir loft is arranged to seat sixteen.

The parlor to be used by the Ladies Circle and already furnished by them is in the tower and directly over the main entrance.

The services of dedication week were opened by the Sunday School at 9:45 on Sunday and as it was "Rally Sunday" and relatives and friends were invited the School had many visitors. Rev. Dr. William Ewing of Boston delivered an address and the superintendent Mrs. Frank Miller started the School on the work for the year which promises to be most prosperous. At the regular morning service at 10:45 the Auditorium was filled to hear the minister Rev. Dr. Andrew W. Archibald deliver the sermon. A solo was rendered at this service by Mr. Ernest L. Zels, the organist being Mr. Frank L. Miller.

Announcement was made at this service of a gift to be made to the church of a memorial clock in memory of the only one of the eighty original members who has died. Three new members were received into the church. Nine children were baptized at the afternoon service at 3:15 and this was followed by the communion service with the communion address by the Rev. J. B. Seabury of Wellesley Hills a former pastor. Presiding at the table with brief addresses were Rev. George A. Hall of Brookline and Rev. Henry A. Hyde of Somersworth N. H., both of whom have acted as temporary supplies for the church.

At 7 P. M. an evening service specially in the interests of Young People was held with addresses by the Rev. Edward M. Noyes of the First Church, Newton Centre, and the Rev. Jay T. Stocking of the Central Church, Newtonville. At this service music was rendered by the new choir.

At the Dedication Service on Tuesday evening following the Organ Voluntary, the singing of the Doxology, the Invocation and Lord's Prayer by the Rev. Charles L. Merriam of Newton, the statement of the building committee was read by J. Porter Russell Esq.; in this statement the committee acknowledged the help given by the Congregational Churches of Newton who contributed \$3,500 toward the building fund, and expressed their appreciation of Mr. William C. Strong's gift of the land which crystallized the movement toward a new church and attested to the untiring zeal of the chairman of the

building committee, Mr. Frederick W. Webster who gave generously of time labor and purse. The committee also acknowledged the help of the late Frederick H. Putnam who died before the work of the committee was complete.

The scripture reading was by the Rev. J. Edgar Park of the West Newton Congregational Church. Mr. Ernest L. Zels then rendered a solo which was followed by the act of dedication, the minister and people standing. The prayer of dedication was by the Rev. W. C. Gordon Ph. D. of the Auburndale Congregational Church. Then followed Felicitations: From the Old South Church, John Wells Morris, Esq., Boston. From the Newton Churches, The Rev. H. Grant Person, of the Elliot Church, Newton. From the Congregational Church Union, Samuel Usher, Esq., Cambridge. Felicitations were received by message from the sister Church of the village The Church of the Good Shepherd, signed by the Rector Rev. James C. Sharp and William H. Oakes and A. C. Burnett for the Wardens and Vestry.

The sermon was by the Rev. William H. Butler of Boston, and after the singing of "Oh Where Are the Kings and Empires Now," the Benediction was pronounced by the Rev. M. Hale of Brookline.

Wednesday was social night and greetings were received from Rev. James Clement Sharp of The Church of the Good Shepherd, Rev. Maurice A. Levy of the Newton Centre Baptist Church, Rev. John Galbraith Ph.D., D. D. of the Methodist Church, Newton Upper Falls, Rev. George T. Smart of the Newton Highlands Congregational Church, Hon. John W. Weeks, West Newton and William C. Strong Esq. Waban.

Then followed a reception those in the receiving line being: Rev. Dr. Andrew W. Archibald Minister and Mrs. Archibald, Mr. Frank Miller President of the Directors and Senior Deacon and Mrs. Frank Miller Superintendent of the Sunday School, Mr. George F. Revinlus, Secretary of the Society and Clerk of the Church and Mrs. Revinlus, Charles A. Andrews, Treasurer of the Society, Austin S. Bourne, Acting Junior Deacon, Mr. Joseph F. Breck Treasurer of the Church, Mrs. Joseph F. Breck President of the Ladies Circle, Frederick W. Webster Chairman of the Building Committee and Mrs. Frederick H. Putnam.

Following the reception a collation was served by the Ladies Circle in the Vestry and all inspected the building.

It has been noted that the acoustics of the building are very good and that the church has a very fine organ. A good opportunity is offered the public to hear the organ when an organ recital for the benefit of the church fund will be given at the church this evening with the following program.

## FOR COUNCILLOR

Mr. G. Fred Simpson of Newton a Strong Candidate

The candidacy of Mr. G. Frederick Simpson of Newton for the Republican nomination for councillor is being received with much favor by the leading Republicans of the sixth district, for his long and successful business experience, high character and sound judgment fully qualify him for this important office.

Mr. G. Frederick Simpson

Mr. Simpson is president of the Simpson Bros. Corp., one of the largest concerns in the concrete and asphalt business in the country. He is a director in the Newton Trust Co. and vice-president of the Newton Savings Bank. Mr. Simpson was born in Sullivan, Maine, and served with honor in the Civil War.

His candidacy should have the approval of every good citizen.

The members of the Union Church feel that the dedication of their church at this time is due largely to the work of Dr. Archibald, the minister in charge who organized the Union Church in Waban in 1911 and initiated the movement for the erection of a building and who was very helpful in the procuring of funds. This was testified to at the dedication in the statement of the building committee.

The following is a brief statement of Dr. Archibald's activities:  
Born, New Kingston, N. Y., April 10, 1851. Pastorates: In Iowa, Neville-Fontanelle (1876-1877 and summer supply 1875), Stuart (1877-1880), First in Ottumwa (1880-1887), Edwards in Davenport (1888-1892); in Massachusetts, Hyde Park in Boston (1892-1897), Porter in Brockton (1897-1905). By-products of Ministry: Organized Plymouth Church in Ottumwa, Iowa, 1883; Congregational Church, Cliftondale, northern suburb of Boston, 1888; Union Church in Waban, western suburb, 1911. Degrees: A.B. and D.D. from Union College, B.D. from Yale University. Books: "The Bible Verified," "The Trend of the Centuries," "The Easter Hope."

## MEETING TO PROTEST

Against Railroad Location to be Held Next Week

The actions of engineers employed by the Grand Trunk Railway Company in staking out a tentative route for a belt railroad line across this city from Watertown to the Needham and West Roxbury lines, have aroused a storm of indignant protest from the localities affected. The map printed in this issue shows the proposed location quite plainly and a more detailed description is given elsewhere.

The Newtonville Improvement Association has acted promptly and has called a public meeting for next Wednesday evening at the assembly hall of the Newton High school, at 7:45 o'clock, to which the public is invited.

The matter was discussed editorially in our last issue and the Boston Transcript had a good story of the matter in its issue of last Saturday, accompanied by a map which was of great value in sizing up the situation.

## NEWTON GIRL APPOINTED

Miss Katharine R. A. Flood of Washington street, Newton, has been appointed secretary to Judge Albert B. Beers, the new commander-in-chief of the Grand Army of the Republic. Miss Flood will make her headquarters at Bridgeport, Conn.

Miss Flood is the only woman who has ever held the position for more than one term. Her first service as commander's secretary was with Commander-in-Chief John E. Gilman of Boston two years ago. Since then she has been actively engaged in the preparation for the encampment which just closed at Los Angeles.

Osborne said today that Miss Flood was best fitted for the work on account of her long experience and wide acquaintance in G. A. R. circles.

Miss Flood will leave Los Angeles Oct. 1 to take up her new duties in the National headquarters in Bridgeport.

## DEATH OF MR. CURRY

Mr. Robert Curry, for many years a resident of this city, died at his home on Jefferson Street, Tuesday noon, after an illness of several months. Mr. Curry came to Newton in 1880 and engaged in the carriage business, later removing his place of business to Charlestown.

Services conducted by Mr. Person of the Elliot Church were held at the house this (Friday afternoon) at two o'clock. The interment was at Mount Auburn.

Mr. Curry leaves a wife and one daughter, Mrs. Chauncey B. Allen.

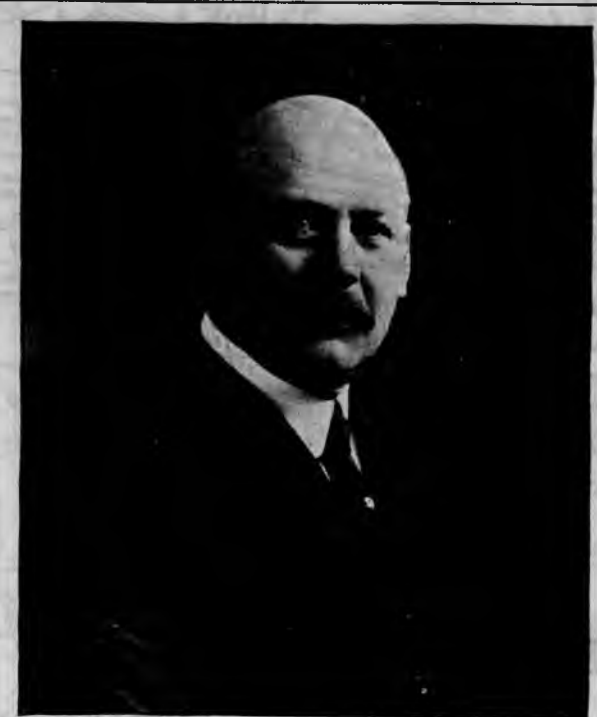

## CASTLE SQUARE THEATRE

Married or single, happy or unhappy, you cannot fail to like "Is Matrimony a Failure?" and to answer the question in the affirmative. This merry play will be given by John Craig at the Castle Square Theatre next week, and it will offer an almost endless amount of laughter. Storms of laughter are bound to be aroused by "Is Matrimony a Failure?" It has been given in previous seasons under the direction of David Belasco, and Mr. Craig's production bids fair to duplicate its earlier popularity. The stage settings will be effective, and the cast will be so arranged as to bring out the full humors of the play. John Craig will appear as Skelton Perry, the role originally created by Frank Worthing, while his wife will be acted by Mary Young. Others in the cast of husbands and wives will be Donald Meek, Walter Walker, Carney Christie, Laurett Browne, Mabel Colcord and Florence Shirley. The run of "Is Matrimony a Failure?" at the Castle Square will be for only one week.

## HIS SPLENDID RECORD

Ensures Congressman John W. Weeks a Re-nomination by Republican Party

Congressman John W. Weeks has been and will continue to be, the representative of all the people. In his congressional career no man has asked of him a favor so small that it has not received consideration. Thousands

CONGRESSMAN JOHN W. WEEKS

of Mr. Weeks' constituents will testify to this fact. And with the immense amount of detail incident to this work Mr. Weeks has found time to prove his ability as a statesman and has risen to be one of the strongest influences in National life.

He has interested himself in the suppression of the Gypsy moth pest and has done more than any other individual to aid in obtaining National appropriations for this work.

He secured the appropriations for a new Custom House and Appraiser's Stores for Boston after many others had failed in the attempt.

He is a friend of all Postal employees and has stood for the beneficial measures put through Congress in their interests since his incumbency. These include the removal of the pernicious gag-rule; the passage of the eight hour law for Postal clerks, better known as the 8 in 10 law; and the allowance of travel expense to Railway Mail clerks.

His work alone made possible the

passage of the Appalachian Forest Reserve Law which will stand as one of the greatest pieces of constructive legislation of recent years.

He drafted and had charge of the Postal Savings Bank Law.

He was of assistance, as a member of the Conference Committee in putting through the Panama Canal.

He introduced the Resolution calling for the investigation of the Taylor System at the Watertown Arsenal.

He voted for the establishment of the Children's Bureau.

He voted for a bill creating the Industrial Commission.

He was a sturdy advocate of the Tariff Board.

The old soldiers of the district he has represented can testify to his active interests in their behalf and we point with pride to the number of pension increases he has been able to secure for them in urgent cases of need.

He introduced the bill for One Cent Letter Postage.

He introduced a bill to Reorganise the Post Office Department along lines based on the investigation of the Postal Commission.

## PROPOSED RAILROAD ROUTE ACROSS NEWTON

### Engineers Have Staked a Possible Location for Belt Line of the Grand Trunk Railway

Stakes showing a tentative route for the belt line of the Grand Trunk railway across this city have been put in position during the past few weeks and have aroused a storm of protest. The accompanying plan, which we print thru the courtesy of the Boston Transcript, shows the matter quite clearly and a detailed description follows.

After crossing the Charles River from Watertown into Newtonville the survey as indicated by the stakes, takes a course almost due south, crossing Washington street, Fair Oaks avenue and Crafts street, where there is a line of street cars running from Newtonville to Waltham. Then the line takes a generous slice off the nine-hole course of the Albemarle Golf Club. The tracks, if located here, will be unpleasantly close to the Fessenden School for boys.

Leaving the golf links the survey cuts through the city yard and stables on the north side of Watertown street, the principal highway from Nonantum to West Newton, and on the other side of this thoroughfare the stakes are placed within a few yards of the Horace Mann School.

From this point the line runs between, and parallel with, Brookside avenue and Walker street, both lined with residences, and emerges on Washington street, one of the most important thoroughfares in the city, with a double line of car tracks. The stakes are driven so that after crossing Washington street the line practically touches the house of the Newtonville hook and ladder truck, where one of the two automobile combinations is stationed.

Then the survey crosses the four tracks of the New York Central's Boston & Albany division, which runs parallel with Washington street for several miles. After crossing the tracks the engineers were forced to make a detour to get around the east side of what is known as West Newton Hill. The line crosses Austin street, Highland avenue, Otis street, Highland street and thence runs parallel with Lowell avenue until Commonwealth avenue is reached.

If the staked course is adhered to the property of St. John's Episcopal Church, at Lowell avenue and Otis street, Newtonville, will be ruined. A short distance beyond this point the route passes within two hundred yards of the Classical and Technical High Schools and directly in the rear of the tennis courts and athletic field of the High Schools.

After crossing Valentine street the line takes some of the land on Wauwinet Farm, the model dairy establishment conducted by Representative George H. Ellis, and then it crosses Commonwealth avenue.

After crossing the boulevard the survey swings toward the west, and passes in the rear of the Newton Cemetery and across Beacon street. From this point it runs through swampy

land, crossing Wilber and George streets and the Cochituate aqueduct in Newton Centre.

In Newton Highlands the survey crosses Woodward street and then runs parallel to that thoroughfare, which makes a sharp turn. Here there is a natural valley between two extremely high stretches of land, one extending into Newton Upper Falls and the other running back toward the centre of Newton Highlands. The survey naturally follows the vantage point and crosses Boylston street, the old Worcester turnpike, with its double line of tracks belonging to the Boston & Worcester Street Railway Company. Further on the line crosses the double-track system of the Newton circuit of the New York Central & Hudson River system and but a short distance beyond another railroad line has to be crossed. It is the Woonsocket branch of the New York, New Haven & Hartford system, a single-track line which runs from Newton Highlands through Needham.

At this point a radical change in the survey occurs. Instead of following the logical line across the swampy land that borders the Charles River and thence across the Needham boundary toward Dedham and the points beyond, the stakes swing toward the southeast into the Oak Hill section. Needham and Winchester streets, Upland avenue and Vazie streets are crossed and then the line crosses Dedham street at a point near where that thoroughfare joins Walnut street. Then Parker street, the direct road to Newton Centre, is crossed, after which the survey cuts across Dudley road near Greenwood street. Brookline street and Lagrange street are the last thoroughfares encountered before the line of stakes crosses the Newton boundary into West Roxbury, not far from the Mt. Benedict Catholic Cemetery and close to the Brookline boundary.

From this point the survey swings to the east, running through several sections of Boston and bordering the Neponset River in the direction of South Boston.

It is probable that the engineers will run other surveys before making a final selection, and a line may be surveyed that will follow the shortest route toward Dedham. Such a survey would run due south from Newton Upper Falls across the Oak Hill section.

#### CORRESPONDENCE

Boston, Mass., Sept. 17, 1912.

Editor, Newton Graphic.

Dear Sir:—The newspapers of Newton have always been willing to take an interest in anything of importance to the city, and for this reason I would like a little space for this communication.

The map published by the Boston

Transcript and Boston Post gives a clear idea of one of the routes staked out by the engineers of the Grand Trunk Railroad for their Providence Branch, which circles through several of the Newtons and of course must avoid grade crossings, which will probably mean an embankment of gravel twenty to thirty feet high and eighty or more feet wide at the base.

Over this the engines will screech and belch forth smoke and cinders, while the thunder of the heavy trains carrying transcontinental freight will disturb the neighbors for a mile or so.

The Fessenden School, with its boys from all over the country, will be injured, as well as the Horace Mann, both High Schools and the Claflin Field, which the two Days and Charlie Dennison, together with public-spirited citizens, donated to the city.

Picture this mountain of earth crossing Commonwealth Avenue. To save space, I will not follow the line beyond Newtonville. In order to prevent an elevated road through the Newtons, the city widened Washington Street and paid ten per cent of the cost of depression of the roadbed, for which the city is paying principal and interest on bonds issued for over a million dollars.

On the south side, the cost to the city was about \$75,000 additional. In addition to this, our city pays its proportion of the twenty-five per cent assumed by the State of Massachusetts.

Does it seem reasonable after all this outlay to preserve the beauty of the city to permit a foreign road to damage, if not destroy, miles of our city property without restriction and without compensation. Newton is growing in popularity and people from Brookline, Dorchester and other sections are constantly moving here and to the development of property during the past year is mainly due the reduction in the tax rate.

Cannot every citizen, even though one of the proposed routes does not cross his territory, see that the road will be a serious injury and indirectly a cause of higher taxation to every taxpayer in Newton?

The Newtonville Improvement Association is arranging for a public meeting in Newtonville to discuss the matter and it is hoped that every one who has any interest in the welfare of the city will give support.

#### DEATH OF MISS KINGSBURY

Miss Harriet Esther Kingsbury died Tuesday after a long period of failing health. Miss Kingsbury was 76 years of age and was a resident of Newtonville for many years. She was a woman of remarkably strong personality and led a noble, Christian life, rendering great service in church work. The funeral took place this afternoon at her late home at 9 Chesley avenue. Impressive services were conducted at 2 o'clock by Rev. Albert Hamnutt, pastor of the First Universalist Church, of which she had been for many years a member. Appropriate selections were rendered by a male quartet and the burial was in the family lot in the Needham Cemetery.

#### BASEBALL CONTROVERSY

The game of baseball scheduled for last Saturday at Cabot Park between the Nonantum Boys' Club and the Y. M. C. A. intermediate team was declared forfeited to the Nonantum team, when the Y. M. C. A. team failed to appear. Manager Bissell of

the Y. M. C. A. states that he could only get seven members of his team together and, lacking the services of a pitcher, he was unable to play. The Nonantum team is extremely anxious to meet the Y. M. C. A. team, however, and challenges them to a game for a prize of \$25, to be played tomorrow on any grounds selected by the Y. M. C. A. It is possible that a game may be arranged in the near future. The Nonantum team has had a most successful season, winning 25 games and losing but 2, and therefore claim the championship of Newton in their class.

#### NEWTON MEDICAL CLUB

The Newton Medical Club held a highly interesting meeting Monday evening at the Newton Hospital. It brought together 30 physicians and hospital attendants of the city, and unusual cases were discussed by Dr. H. H. Waters, Dr. H. F. Keever, Dr. W. W. Marston, Dr. I. J. Fisher, Dr. Baldwin and Dr. Diehl, Dr. F. E. Porter presided.

## Raw or Pasteurized Milk

### Which Is the Safer?

You insure your life against the time when accident or sick-  
ness may occur.

You buy safe milk against the time when other milk may  
spread disease.

Because you have been fortunate in keeping well does not  
mean that you do not need safe milk right now.

One man delivered milk for thirty years, and his customers  
were safe until an epidemic of typhoid fever was traced to his  
supply, and 295 of his customers were made sick and 10 died. He  
delivered raw milk.

An epidemic of disease has never been traced to Perfectly  
Pasteurized Milk.

Hood's Milk is Perfectly Pasteurized and is Pure—Clean—  
Safe.

The cheapest form of life insurance for yourself and family—  
Hood's Milk.

Hood's Method of Perfect Pasteurization does not change the  
taste of milk, nor alter its digestibility. It makes the milk Safe.

### IN MR. WEEKS'S DISTRICT

It behooves the friends of Captain John W. Weeks, in the new 13th Congressional district, to go to the polls next Tuesday and make his nomination sure. Ordinarily there would appear no doubt on this score, but conditions are this year peculiar. One-half of the district is new. To its people Captain Weeks is relatively unacquainted. His opponent is making a vicious, though somewhat fantastic, campaign.

Mr. Weeks is one of the conspicuous leaders of the national House of Representatives. It would be extremely unfortunate if anything should happen, either now or in November, to terminate his pre-eminent public service. This is a period, more than ever before in our history, when sane-minded business men are needed in the councils of the nation.

The United States needs monetary reform more than anything else which Congress can give it. Alone among the civilized nations of the world we are tolerating an antiquated and inelastic currency system. To this discussion Mr. Weeks, from his service on the Monetary Commission, brings unquestioned strength and influence. His original appointment on that body attests to his high standing in Washington.

In the last Republican Congress he was chairman of the Post Office Committee, and as such influenced an appropriation bill carrying \$340,000,000. It was adopted by his colleagues in the House without the change of a punctuation mark—no small tribute to his effectiveness as a law-maker.

Captain Weeks is a graduate of the Naval Academy at Annapolis, and in

consequence has been particularly well acquainted with the problems of the navy and the merchant marine. Issues of the most vital concern to a sea-coast state like our own. And they are issues to which we shall soon give greater attention.

The Appalachian forestry reserve measure bears Mr. Weeks's name. His efforts in its behalf were untiring. Its success is a triumph for all New England.

It would be a very great mistake to let capriciousness on the part of the sensationally-minded, or any accidental disregard of primary duty by the more substantial citizens, interfere with a career of so much value to the state as that of John W. Weeks. Let the voters of the 13th district go to the polls next Tuesday.

—Boston Herald.

# Crawford Ranges

One very remarkable fact in connection with Crawford Ranges is that nobody ever willingly changes from a Crawford to a range of any other make.

There must be a reason—we believe there are several. The Single Damper (patented,) the scientific Cup-Joint Oven Flues that heat the oven in every part alike; the Ash Hod (patented,) instead of the clumsy ash pan; these are some of the Crawford time and trouble savers.

If you will carefully examine and compare the Crawford with any or all other cooking ranges you will see why Crawford's do better work, with more comfort for the cook and less waste of time and money. Send for the illustrated pamphlet.

### FORM UNION

At a meeting of the employees of the Middlesex and Boston Street Railway Co. held at Waltham Saturday night a Union was formed.

A mass meeting of the conductors and motormen of the road was held Monday night in Hovey Hall, Waltham. There were about 200 present and Fred Fay, international organizer presided.

After the meeting President Fay said that 75 per cent of the entire force of employees had already joined union. A meeting will be held in Waltham Wednesday night and on Friday night a meeting will be held in Lexington.

One week from Friday night there will be a mass meeting in Waltham, when officers will be elected and the demands to be made on the company decided upon. Mr. Fay said that these demands would not be unreasonable. They would ask that the men who had been discharged be reinstated unless it could be shown that there was a good excuse for their dismissal. They would also insist upon recognition of the union.

The Middlesex and Boston system operates 16 miles of track and employs several hundred men.

### ROWLEY—BOSTWICK

Miss Josephine Osborne Bostwick, daughter of the late Mrs. Portia Bostwick of Newton Centre, was married on Saturday to Mr. Henry Esmond Rowley, of Brookline, at the home of the bride's brother, Kenneth Bostwick, 145 Longwood avenue, Brookline.

### CLAFIN GUARD NOTES

Regular drills were resumed Monday evening with a large attendance. The men seem to have recovered from whatever effects the late Connecticut campaign may have had and entered into the work with a vim.

Lieutenant Daniels has announced his intention to limit the length of the weekly drills to one hour, instead of an hour and a half as heretofore. This ruling, of course, will find favor with the men and will no doubt add to the effectiveness of the drill.

Until further orders, the uniform for drill will be dress, with tan belt, cartridge box, white gloves and black shoes.

The company range will be open every Saturday for men who have not finished their qualification or who wish to keep in shape for the annual prize shoot on Columbus Day.

A series of weekly dances under the able direction of Q.M. Sgt. Donnelly, will begin shortly. The proceeds of these dances will be used to defray the expenses of the company on the proposed trip to Washington next March.

Lieutenant Daniels very urgently requests that men having any property out will get it back to the quartermaster just as soon as possible.

### NEW PLAYGROUND INSTRUCTORS

At a meeting of the Playground Commission held at the Newton Club Tuesday night these appointments were made: Miss Lucy F. Cooley for the Lower Falls playground; Miss Martha T. Rice, for the West Newton playground; Miss Susan W. Hills for the Newton Centre playground; Mrs. Hazel Boller for the Stearns School playground; Miss Charlotte R. Kingman for the Highlands playground. Instructors will be appointed to the Waban, Thompsonville, Boyd Park and Auburndale playgrounds as soon as they can be found. The appointments confirmed were those of Edwin Judd of West Newton; William H. Crafts of Newton Centre and Lester M. Lane of the Stearns playground.

### PUSH-CART MARKET

A "Push-Cart Market" will be held in Bray Hall, Newton Centre, on October thirtieth and thirty first from ten A. M. to ten P. M., each day.

A luncheon will be served at noon and a supper at night. There will be legerdemain each afternoon for the children and a special entertainment in the evening. A Halloween party will be given on the evening of October thirty-first.

A picturesque tea garden on the stage of the hall will serve tea, coffee, chocolate, etc., after noon and evening.

The enterprise is in the hands of the Finance Committee of the Mothers' Rest Association of Newton Centre, with the aid of the Mothers' Rest Club and other friends of the association.

—Mrs. H. Myron Daggett and Mr. Eldred Daggett of Chaika avenue have returned from a two months visit with relatives in Pennsylvania and New York State.

—Mr. Frank Le Baron Aurelio of Hartford Conn. who has recently been appointed instructor of architecture at Wentworth Institute, has taken a house at 17 Prairie avenue and will occupy it this week.

—Miss Elizabeth Cormerals will reopen her dancing classes in Norumbega Hall, Auburndale, Tuesday, October fifteenth. Beginners' class at two o'clock. Advanced class at four o'clock. The High School assemblies will open Friday, October twenty-fifth, at half past seven o'clock, and will be held every other week.

In these days of large campaign expenses it behooves the newspaper compositor to be extremely careful. One of the Boston dailies informs us that in a certain State primary Mr. X. polled some \$50,000 votes.

Hostess (to one of the small guests): "Now dear, will you have some bread and butter to finish up with?" Small Guest: "No, thank you, I will have some cake to be going on with."—Punch.

For President  
WILLIAM H. TAFT

While the hue and cry which is being made in certain sections of the city in regard to the proposed route of the Grand Trunk Railroad across our beautiful city, may be useful in bringing it to the attention of our people, in a forceful manner, so far as practical results are concerned, it is time and energy wasted. I pointed out last summer, when this legislation was pending, the possible effect it might have on this city, but the public either did not realize its importance or did not care to exert itself at that time. Now that the legislation is in full effect, there is little which can be done. The company has one year in which to file its plans. The approval or disapproval of the board of aldermen has but little value as the matter also requires approval by the railroad commissioners, of which a Newtonville resident, Mr. George W. Blahop, is a member. It is possible, of course, that the route as shown on the map may be changed, and it is certain that the language of the law will not permit the company to take a location which will lead it to the Boston line, as it is most explicitly stated that the route must be in Needham, Newton and Watertown, and it does not require a lawyer to determine that question. As I pointed out last summer, there is a possible route by way of the valley of Laundry brook, which might be more feasible or advisable than the one proposed west of Newtonville square, but either would be a blot on the topography of the city. Our representatives in the Legislature, all of whom voted for this bill, inform me that in their opinion, this belt line through Newton will not be constructed, on account of its enormous cost, and it is earnestly hoped that they are right.

There appears to be a feeling in the air that the state primary next Tuesday will be largely attended. Newton has a great interest in the renomination of Congressman John W. Weeks of this city, whose title is being contested by Mr. Long of Framingham. Captain Weeks has made an enviable record in Congress, of which the residents of this city are proud. In post-office, monetary and forestry legislation, Mr. Weeks has made a great impression and on this record alone he should be returned to Congress. In addition, however it is hard to see how Mr. Long can have the assurance to enter the contest with Captain Weeks. Newton people remember the defeat of the late Charles S. Dennisson, by Senator Vahey, a feat made possible only by Mr. Long's money and influence, and there are rumors that Mr. Long has failed to give hearty support in recent years to other Republican candidates. Under these circumstances, Newton voters should give their hearty endorsement to the renomination of Congressman Weeks.

In Mr. G. Fred. Simpson, Newton has a candidate for the Governor's Council who will honor the city in accepting the office. We who have known Mr. Simpson during his long residence in the city and who have witnessed his successful business career, his broadmindedness, and his willingness to contribute to the good and money to all movements for the public good, know that the state will be the gainer from his public service. While the Governor's Council is not usually given much thought by the average voter, the supervision of the financial management of the state institutions, and the important part it plays in the matter of pardons, demand men of ripe business experience and sound judgment. In these respects Mr. Simpson is fully qualified and Newton should show its appreciation of his candidacy, and insure his nomination, by giving him a substantial vote on Tuesday next.

Of the two Republican candidates for the nomination for governor, I believe that Hon. Joseph Walker should have the endorsement of this city. He has a splendid record of constructive legislation while a member and Speaker of the House of Representatives, and he certainly has as wide a knowledge of the financial condition of the state as any man in public life. In addition his splendid spirit of last year in loyally supporting on the stump his successful rival for the nomination for governor, made him many friends who admire such sportsmanlike qualities. Let us give Mr. Walker a good vote for the gubernatorial nomination.

## POLITICAL NOTES

The Democratic candidates for the nomination for Congress in this district are holding many open air rallies in this district and a joint debate will be held tomorrow night under the auspices of the Newton Democratic Club in the Nonantum building ought to attract quite a crowd.

Mr. R. H. Long, candidate for the Republican nomination for Congressman, spoke from an automobile in Nonantum square last Saturday night.

## JOHN W. WEEKS

## Candidate for Renomination to Congress

He has served four terms from the old Twelfth District, and in that time he has "made good" in the fullest sense of the word.

He originated and put through the Appalachian Forest Reserve Bill.—The greatest piece of constructive legislation New England has seen in this generation.

He has been closely identified with all the recent advances in the Post Office Department; viz:—Postal Savings Banks, Parcels Post, The Removal of the "Gag Law" for employees, The 8 hour bill (8 in 10).

He is a recognized authority on finance and financial legislation, having served on the Monetary Commission; and he is further an authority of equal weight on Naval matters.

He has received the endorsement of Labor Unions; of the Postal employees; of the press of the State and Nation; and of his colleagues in the House, regardless of party affiliations.

His record measures up, in every detail, to the highest demands of his constituency. Investigate this record and you will conclude

He is the man you should retain as

## GIVEN LOVING CUP

Mr. Carl Alberto Honored As Norumbega Park Closes

Among the many interesting events which marked the close of the summer season at Norumbega Park, Newton's beautiful pleasure resort on the Charles, was the farewell reception given Mr. Carl Alberto, the efficient manager, by the employees of the Norumbega Park Company. This event, which took place Sunday evening, was in the nature of a surprise.

MR. CARL ALBERTO

As the park was about to be closed for the night, the employees reported at the office after the usual custom and then quietly repaired to the theatre. A messenger was then sent to the office carrying a message to Mr. Alberto, to the effect that there was something wrong with the lighting apparatus at the theatre. Mr. Alberto went at once to the theatre, where to his surprise a company of his employees numbering about 75 awaited him, and as a testimonial of their appreciation and esteem, presented him with a beautiful solid silver loving cup bearing the inscription "Presented to Mr. Carl Alberto by the Employees of the Norumbega Park Company, Season of 1912." Mr. Alberto made the presentation speech to which Mr. Alberto responded in a most felicitous manner.

Mr. Alberto has just completed his fifteenth season at the Park, and the occasion was a most enjoyable one. Among those participating in the affair were: C. M. Gordon, Harry L. Campbell, N. T. Seaver, Harry M. Weeks, O. H. Hurd, H. R. Smith, Grover C. Chase, W. I. Mason, A. E. Gallant, Joseph B. Farrell, Wm. C. Bruce, Tom Waters, Aug. E. Collins, Lorenzo Alberto, D. L. Quackenbush, C. W. ## GUESTS OF MAYOR

Aldermen and City Officials Make Annual Inspection of City

Members of the board of aldermen, city officials and newspapermen were the guests of Mayor Charles E. Hatfield last Saturday at the annual inspection of the city streets and buildings. The party met at City Hall at nine o'clock, where a dozen or more automobiles were in waiting, and included Aldermen Cabot, Williamson, Pratt, Early, Moore, Chadbourn, Gray and Jamieson.

The first visit was made to the patrol stable in the rear of the City, where new floors have been laid during the summer. At the Engine House in West Newton, the horses were called out and the new drill tower in the rear of the building was inspected. The proposed widening at the corner of Lexington and River streets was viewed without stopping and the run ended at Auburndale park, which is being filled in for playground purposes. A conference followed on the Weston bridge, the improvement of which Mayor Hatfield and his predecessors have often urged.

Plans calling for a new bridge to cost \$50,000.00 and others for repairs costing from \$28,000.00 upwards were explained by City Engineer Rogers. Without asking permission of the Mayor, the city automobiles were then taken out of the city for a beautiful ride on the Weston shore to Norumbega tower and from thence to Newton Lower Falls over the Concord street bridge. A few venturesome hills and gazed at the Hamilton school which is the proud possessor of a new fire escape, and the need of a widening of Washington street at Wales street was then urged by Alderman Early. The next stop was at the railroad bridge over Boylston street, at Elliot, for which there is a strong petition for a widening. As the matter involves something like \$65,000, it is probably a matter for the dim future to settle. The need of repairs on Boylston street, however, was brought forcibly to the attention of the aldermen present.

At the Upper Falls, the party was given a practical illustration of the splendid use made of a playground. Once again the automobiles ventured outside of the city, and passed through the waterworks land on the Needham side to the Nahant street bridge, which evidently will need attention in the near future. A rapid visit was then made to the Newton Highlands playground and to the trunk sewer under construction in Boylston street. The route then led through Newton Centre to the Technical High school at Newtonville where Headmaster Irving O. Palmer showed the aldermen the machinery and equipment for which over \$32,000 was recently appropriated. A brief visit was made to the Industrial school plant at Nonantum and a more extended at the Allison pit where a hired stone screening plant was in full operation. Street Commissioner Rose, later told the board that he would like to purchase such a plant for the city. A flying trip was made to the proposed widening of Pearl street and a longer stop at the Chestnut Hill fire house to view the new auto fire combination which has just been installed. The beautiful country ground Oak Hill was then visited and a hired "buggy" lot of men reached the Brae Barn Club for an "excellent" luncheon, which was served at two o'clock.

After luncheon, following the custom of previous years, the various heads of the departments told the aldermen their plans for the coming year and urged various appropriations for their several departments.

**Middlesex, ss. PROBATE COURT.**

To the heirs-at-law, next of kin and all other persons interested in the estate of Augustus J. Hine, late of Newton, in said County of Middlesex, WHEREAS, a certain instrument purporting to be the last will and testament of said deceased has been presented to said Court, for Probate, by Ellen M. Hine, who prays that letters testamentary may be issued to her, the executrix therein named, without giving a surety on her official bond.

You are hereby cited to appear at a Probate Court, to be held at Cambridge, in said County of Middlesex, on the seventh day of October, A. D. 1912, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is hereby directed to give public notice thereof, by publishing this citation once in each week, for three successive weeks, in the Newton Graphic, a newspaper published in Newton, the last publication to be one day, at least, before said Court, and by mailing post-paid, or delivering a copy of this citation to all known persons interested in the estate, seven days at least before said Court.

Witness, Charles J. McIntire, Esq., First Judge of said Court, this seventeenth day of September, in the year one thousand nine hundred and twelve. W. E. ROGERS, Register.

At the reception which followed, Mr. and Mrs. Edward A. Phippen, parents of the groom, assisted the bride couple. Mr. and Mrs. Phippen will make their home in New York.

B. F. KEITH'S THEATRE.—One of the strongest and most brilliant galaxies of stars ever seen in one vaudeville bill is announced for B. F. Keith's Theatre next week, headed by Sam Chip and Mary Marble, Harry Tighe and his big company of collegians, and The Great Tornadoes from Germany. For several years Chip and Marble have been touring the circuits in a musical comedy called "In Old Edam" and thousands of vaudeville devotees have laughed at the quaint antics of the little Dutch boy and girl. This season Mr. Chip and Miss Marble bring a brand-new act, written especially for them by Herbert Hall Winslow, and entitled "The Land of Dykes." John W. Dunne, who played the old Dutch grandfather in "Old Edam," will have the part of the Burgomaster, and Sam Chip is the old man's

gardeners. Miss Marble is the burgomaster's daughter, in love with the gardener. This is one of the most unique and prettiest picture book fantasies ever staged, and abounds in bright lines and catchy music. Harry Tighe and his famous comedians will appear in a new college comedy, assisted by Edith Clifford, which is said to be the funniest and most original act Mr. Tighe has ever given us. The Great Tornadoes is a troupe of six aerialists from Germany, who present the most startling feats on the wire, and others to appear are the Hickman Brothers, a pair of newcomers; Lilian Ashley, a dainty singing comedienne; Helen MacMahon Trio in lively songs and dances, and a number of others to be announced later.

## STRONG PROTESTS MADE

### Newtonville Voices Its Indignation Against Railroad Location In This City

The meeting was called to order at 8 o'clock by Mr. G. W. Auryansen, President of the Newtonville Improvement Association.

Mr. Auryansen briefly stated that the purpose of the meeting was to protest against the construction of the Grand Trunk Railway through Newton, and he then introduced Mayor Hatfield as Chairman of the meeting.

Mayor Hatfield said I know this meeting means a great deal to Newton and I know how you people feel, near whose residences there is a possibility of this road going, and I know and believe that the citizens of Newton do not want the city cut in two by any such railroad.

Whether there is a probability or strong possibility or not of the road taking another location in Newton, it is something I do not think you and I can decide tonight. But there are certain conditions that would have to be met with. Whether the plan as laid out is only a feeler or whether it is the real path that the Grand Trunk expect to take through Newton, no one knows, but should the city of Newton, through the Board of Aldermen, require certain changes in connection with it, they would have to be met before the Railroad Commission would grant the location, and so we have one source of redress at least, and under certain conditions, as Representative Ellis will tell you, the board may refuse to grant it at all.

Mayor Hatfield then introduced Mr. G. M. Thompson, Chief Engineer of the Grand Trunk Railroad.

Mr. Thompson said that he had been requested by Mr. Fitzhugh, President of the Grand Trunk, to come and explain the engineering work which had been going on in Newton, and to answer what questions might be asked. He stated that the route as staked out was not to be considered as the definite plan of the road, but was merely a base line from which plans might be drawn and final plans made. He also said that it was the intention of the road to construct this line where it would do the least possible damage and where it would be the least expensive for the road.

In reply to questions, Mr. Thompson said that he understood this was to be a belt line connecting the other two roads of the company together at Dedham and at Watertown, for both passenger and freight traffic. Mr. Thompson also said that it was his understanding that after the company had decided on its route, plans were to be submitted to the Railroad Commission, and within 10 days copies of said plans were to be filed with each municipality or town. If these cities and towns then failed to report of these plans either in favor or adversely within 60 days, the location was to be established by the Railroad Commission.

In reply to question as to whether it would be possible to use connecting lines rather than run new tracks parallel, Mr. Thompson stated that it would be possible, but the companies must have independent management. Mayor Hatfield said that this was the suggestion also of the City Engineer, and that if the tracks could not be used jointly then construct additional tracks beside the present tracks of the B. & A.

At this point Mayor Hatfield stated that this proposition was favored by the Boston Chamber of Commerce, and that perhaps some of the directors, who were residents of Newton, were present and might say a word. No one appeared, however.

Mayor Hatfield then introduced Rep. George H. Ellis.

Mr. Ellis said: I was told that if I came down to this meeting I had better bring the other two representatives from Newton with me in order that they might act as bearers to carry my remains out of the hall, but do not believe it necessary.

Rep. Ellis quoted sections of the Act authorizing the construction of this road, and showed that two distinct lines were authorized, one to start from the State line between Hampshire and Vermont and to go through various towns and cities by way of Lowell, Lexington, Waltham, Watertown, Cambridge, Everett, and Chelsea into the city of Boston; and the other from the town of Blackstone through Franklin, Walpole, Dedham and Milton into the city of Boston; and that a connecting or belt line was authorized between the two main lines, said belt line to start from Dedham at one end and pass through Needham and Newton and connect with the other main line at Watertown. This, he said, was as requested in the original petition, and was accompanied by petitions signed by thousands of property owners and citizens requesting that the railroad be given a location in this state. These petitions contained the names of some 800 citizens of Newton, most of whom were property owners and business men. Mr. Ellis, further stated various sections of the act showing that unless work was actually started within one year after the plans were approved by the Railroad Commissioners, and was completed within three years, then the act was to lapse, unless the Railroad Commissioners, should extend the period provided, conditions should warrant it. He also called attention to the fact that after plans of the complete location desired were filed with the Railroad Commission, certified copies must, within 10 days, be filed with the various cities and towns and if the cities and towns failed to agree on some location and so reported to the Railroad Commission.

road Commission, then after due notice the route was to be specified by the Railroad Commissioners.

It was his opinion that the chances of the road ever being built were very remote as the company had not yet been authorized to construct a line by the state of New Hampshire, and it was doubtful if legislation could be passed by them in order that work might be started in Massachusetts within one year, from the passage of the order, June 10, 1912.

It was his opinion also that it would be much cheaper and simpler for the Grand Trunk to use existing lines of the New Haven Roads rather than to attempt to build new lines, and believed that perhaps this conclusion might be reached by the railroads, provided they could make satisfactory agreements.

In response to various questions of Alderman Frank R. Moore and others, Mr. Ellis stated that he favored an expression of opinion on behalf of the people present and other citizens and perhaps the petitioning of the Legislature to change the location of this belt line and make it a little further west, although it was his opinion that this might destroy the value of a belt line if situated too far from Boston. He said further that the company did not file any plans with the petitions because they believed they should, when the time came, be obliged to pay exorbitant prices for the land taken. He also said that it was a matter for the Railroad Commission to decide whether or not the line should be constructed, at grade, or above or below grade.

Mr. Joseph Byers of Newtonville stated that he believed the representatives from Newton in the Legislature had not rightfully done their duty to the citizens in not in some manner notifying the city government that the act proposed to place this road through Newton. He also favored an expression of appreciation on the part of those present.

Upon motion of Alderman Moore, it was voted that it is the sense of the meeting that those present are decidedly opposed to the location of this road through the city of Newton, and that copies of said opinion be mailed to the Mayor, City Government, Railroad Commissioners, Representatives and Senators in the Legislatures.

Upon motion of Mr. Charles E. Riley it was voted that a committee to consist of one person from each ward be appointed to bring about the desired results.

Upon motion of another citizen it was voted to extend a vote of thanks to all the newspapers that had called the attention of the citizens to this proposed road, and particularly the Newton Graphic and the Newton Times.

The meeting adjourned at 9.15 o'clock.

## SCHOOL GARDENS

Prizes Awarded for the Season at Closing Exercises

The closing exercises and awarding of prizes of the Newton Home and School Gardens was held last Friday afternoon in the Bigelow School Hall. The meeting was presided over by Mrs. Louis Stoughton Drake, president of the Social Science Club and an enjoyable program was arranged for the occasion under the direction of Miss N. E. Coolidge, the garden director.

The exhibition of flowers and vegetables reflected great credit upon the interest and industry, which the young children had shown in the affair, and also the excellent directorship of Miss Coolidge.

The program opened with a short address by Mrs. Drake followed by a recitation entitled "Out-of-Door Arithmetic" by Miss Emma Wilder, a song by all the children of the sixth grade, and a poem written by Miss Emma D. Coolidge, sister of the director, was recited by Malcolm Thompson. Miss Eleanor Wheeler recited "Good-Bye to Summer," followed by a piano solo by Erving Plummer, and a recitation of "Ceres, Fair Goddess of Earth," also composed by Miss Emma D. Coolidge, by Miss Gwendolyn Currier.

Prizes were awarded by Dr. Spaulding, superintendent of schools. In the honor list for school gardens, prizes were awarded to Mary Igo, Anna Murphy and Esther Murphy; home gardens, Malcolm Thompson, of 102 Charlesbank road, Albert Edwards, of 14 Maple terrace, Inez Cormack, of 11 Channing street and William and Raymond VanBuskirk, of 11 Rockland street. First prize for the best school garden was awarded to Caroline Olivigni, and second prize to May Houlihan. Prizes consisting of one dollar were awarded to Delbert Sherard, Frances Igo, George Bennett and Josephine Olivigni.

For the best exhibition of beets, a prize was awarded to Joseph Feola. First prize for the best home garden was given to Leslie McNeil, of 10 Remick terrace; second prize, Howard Fairweather of 15 Emerson street, and one dollar prizes to Frederick Worden of 61 Pearl street, Eugene Lacy, of 21 Brook street, Russell Black of 32 Jefferson street, William Adams, of 5 Jefferson street and Rosalee Lipson of 25 Pearl court.

The poem recited by Malcolm Thompson was as follows:

These you must have to garden you know  
Sunshine and rain, the muscles and pain  
And then a rich harvest we finally gain.

The seeds we can buy, the hoe and the rake.

But patience; by patience alone we can make

And weeding brings the muscles so woe-fully sore.

While weeds seem to flourish the harder and more.

Then sunshine and rain came each to our aid

And with full laden baskets our toil is repaid.

So blithe the cheery gardeners we've been very day

Although sun was broiling in his own angry way.

And rain made it muddy our shoes wet and smudgy.

Still at it we kept and never once wept.

The flowers burst forth so brilliant and bright

That our courage upheld us to work with all might

And here the results of our toil and our ache

We call you to see but not to partake.

The poem recited by Miss Currier was:

There was once in ancient Grecian times

When of nymphs and faeries men made rhymes

Gods of earth, of sky and air

Goddesses, too, both wise and fair

Who gave to all things loving care.

There was one particularly of whom we know

Who caused all things on earth to grow,

Who made the soil both brown and rich

The very weeds she seemed to be-  
with.

She called upon the sun to shine.

Soft winds to blow and rains like wine.

The god of air came to her aid

Tribute in breezes and warm winds paid.

The sun god smiled and beamed his praise

And showered his treasure in a my-riad ways.

Ceres, her name, this kind goddess of earth

Who blessed all men with her glorious worth.

She gave to us all the wonderful trees

That rest mankind by shade and breeze.

She sent the grasses tall and green.

The stones to hide, rough ways to screen.

She sent the flowers to brighten the days

By their pretty colors and fragrant ways.

She sent the fruits all juicy and red

The fields of corn and wheat she spread.

The groves of olives and apples and

Meadows and fields where eye can reach

She spread them all for mankind's pleasure

Ceres, the goddess of earth's full measure.

## GOOD VOTE AT STATE PRIMARY

### Weeks and Simpson Receive Flattering Majority. While Walker Leads Benton

licans cast 2039 as compared with 1744 last year and the Democrats increased their vote from 199 to 667.

If the so-called "progressive" element kept away from the polls in other parts of the state, there was not much evidence of it here in Newton.

Of course the fact that Congressman John W. Weeks was a candidate for re-nomination with an active opponent, and that Mr. G. Frederick Simpson was a candidate for the councillor nomination, undoubtedly helped to swell the Republican vote.

Both these gentlemen have every reason to be proud of the vote of their home city. Captain Weeks received a vote of 1662 and his opponent but 294. Mr. Simpson received the highest vote in the city for a contested office, 1672, and both his opponents totaled but 143.

Hon. Joseph Walker carried the city with 1100 votes, altho Hon. Er- of 405 to 232. The contest in which the party took the greatest interest, erett C. Benton gave him a close call with 815.

On the Democratic side, Governor Foss defeated Mr. Pelletier by a vote however, was between Daley of Brookline and Mitchell of Marlboro for the nomination for Congress. This city has been fighting ground for both and the Mitchell supporters were jubilant when the result showed their man in the lead with 317 to 295 for Daley.

The contested vote for both parties will be found in the accompanying tables.

Other candidates polled the following total vote in the city:

For Lieutenant-Governor, Luce, 1797.  
For Secretary, Langtry, 1766.

Thomas W. White, 1705.  
For County Commissioner, Williams, 1693.

For County Treasurer, Hayden, 1702.  
For Member State Committee, Hatfield, 1776.

For Lieutenant-Governor, Barry, 105; Walsh, 472.

For Secretary, Donahue, 451.  
For Treasurer, St. Comer, 408.

For Auditor, Carens, 391.

For Senator, Cannon, 505.

For Representatives, John C. Madden, 408; William J. Mullen, 330.

For County Treasurer, Boyle, 355.  
For State Committee, Daniel O'Connell, 414.

The following ward and city committee was elected:

Ward 1, Frederic D. Fuller, William Hanson, Wallace Wales, Reuben Farknall, Henry L. Dexter, Jr.

Ward 2, Elisha L. Avery, Albert P. Carter, Frederick W. Harding, Lincoln Righter, Edwin M. Richards.

Ward 3, Henry M. Davis, Arthur G. Hosmer, Thomas O. Marvin, Herbert P. Sheldon, Henry F. Cate.

### Y. M. C. A. NOTES

The bowling alleys are now open and the bowling committee are planning to start a tournament about the middle of October. The alleys are in first-class condition and are to be scraped and re-polished about the 1st of October. Those who wish to enter the tournament will please send in their names as soon as possible.

Over twenty classes a week have been planned for professional and business men, Seniors, High School, Grammar School and Employed Boys. Those interested in seeking health through regular gymnasium exercise will do well to make inquiries as to the time for classes, etc.

The preliminaries of the tennis tournament have been played off. The successful contestants were Messrs. Ellison, Chase, Sisk, Ensign and Salter. The semi-finals will be played off next Saturday and good matches between the leaders are anticipated.

Just a year ago at this time the membership campaign and the opening of the new building were in progress. The assistance and co-operation of the citizens of Newton are to be desired now just as much as at that time. By renewal of memberships and in making subscriptions to the Association work it is hoped that the people of Newton will sustain the high standard of work carried on last year.

### NEWTONVILLE PROTESTS

The following introduction to the story on the first page, was inadvertently misplaced.

In the Classical High School Wednesday evening a monster meeting, protesting against construction of the Grand Trunk road across Newton on the line of the preliminary survey, was held under the auspices of the Newtonville Improvement Association. Property owners and residents from all sections of the city attended the meeting and voiced their protests against the possible entrance of the Grand Trunk to Boston being made through "The Garden City."

The principal speakers were Mayor Charles E. Hatfield, Representative George H. Ellis and George M. Thompson, chief engineer of the Grand Trunk Railroad, and although neither of the speakers could throw any light as to whether the road would actually go through Newton, they well understood the sentiments of the residents before the meeting came to a close. Following the speeches of the men, which appear below, a motion was passed praising the Graphic in the interest taken by it both in the news columns and editorially.

### JACKS-GIBSON

"Sunset Rock," the residence of Mr. and Mrs. Charles Ellsworth Gibson on Bigelow road, West Newton, presented a scene of splendor on Monday evening, the occasion being the marriage of their only daughter, Miss Helen Gibson, well known socially throughout this city, to Mr. Arthur Hill Jacks of Chicago. The entire interior of the house which lends itself admirably to an event of the kind, was artistically decorated with profusion of southern smilax and pink Killarney roses. In the living room where the ceremony was performed, masses of pink roses and palms were arranged in a bower as a background for the bride and groom. The ceremony occurred at 8 o'clock and was witnessed by a small company of relatives and friends of the bride and groom. The Lobengrin wedding march played as the bride party proceeded down the broad stair-case, the eight ribbon girls arranged in couples on either side forming an aisle for the bride party and at the foot of the stairs, the bride was met by her father.

The Episcopal marriage service was read by Rev. J. Edgar Park, pastor of the Second Congregational Church. Miss Gibson, who made a most attractive bride, was attired in a gown of ivory charmeuse, draped with chintilly lace, which had been used on the wedding gowns worn by her mother and grandmother, and carried a shower bouquet of roses and lilies of the valley. She was attended by Mrs. Harold Sherman as matron of honor, who wore her wedding-gown of white satin with point-lace trimmings, and Miss Marian E. Wilcox of Redlands, Cal. as maid of honor, who wore green charmeuse and princess lace and carried a basket of pink roses. The groom was assisted by Mr. R. W. Gardner of Chicago as best man. Mrs. Gibson, the bride's mother, was gowned in pale blue satin trimmed with point-lace, and Mrs. Jacks, mother of the groom, wore a gown of white satin veiled with black lace.

The ribbon girls were Miss Ruth A. Magee of Toledo, Miss May A. Gorham of New York, Miss Dorothy Miner of Hyde Park, Mrs. Thomas H. Logan of Lynn, Miss Marian Berry of Newton, Miss Carol Anderson and Miss Grace Richardson of Newton Centre and Miss Grace Johnson of Boston. A reception was held following the ceremony, the young couple being assisted in receiving by Mr. and Mrs. Gibson and Mrs. Allan Jacks. Music was furnished by the Atwood Orchestra, assisted by eight members of the Boston Symphony Orchestra, the musicians being placed back of a screen of vines and roses in the reception room. The ushers were Mr. Lloyd M. Shepard of Detroit, Mr. Harold B. Sherman of Newtonville, Mr. Stewart K. Gibson, Mr. Charles E. Gibson Jr. and Mr. James Gibson of West Newton, brothers of the bride. Many beautiful gifts indicated the popularity of the young couple, who, after a short wedding trip, will be at home at 905 Michigan avenue, Evanston, Illinois.

Among the guests present from out of town were, Mr. James S. Gibson of Denver, Colorado, Mrs. Walter B. Field of Rockford, Illinois, Mrs. Allen Jacks of Chicago, Mr. and Mrs. Rockwell and Miss June Rockwell of Bristol, Rhode Island, Mr. Edward Gorham and Miss May Gorham of New York City, Mr. and Mrs. Thomas Logan of Lynn, Miss Dorothy Miner of Hyde Park, and Mr. William A. Knowlton of Rockford, Illinois.

### FIRST GAME A VICTORY

Newton High School Wins Initial Contest 23 to 0 Against Needham. Forward Passes Take Prominent Part in Scoring.

Newton High School gridiron warriors opened their season yesterday afternoon on Claffin Field, Newtonville, with an excellent exhibition of football, against the Needham H. S. eleven, and romped away with the contest 23 to 0. The game, being the first of the season, was attended by a large gathering, all eager to size up the material, and also to see just how the new rules governing the game would work out in school football.

Newton annexed its 23 points during the first half, sending in nearly a full team of substitutes during the second period. Two of the touchdowns scored by the local boys were made of well executed forward passes, while the third touchdown was made possible by a forward pass, which carried it but a few feet from the goal line. Ellison had little trouble in bucking the line at this point and scoring the touchdown.

Captain Charles Wilbur played a brilliant game at end for the High School, catching the forward passes which resulted in two touchdowns, and also making several spectacular tackles. Brady and Roquemore, both veterans from last year's eleven showed up strongly, as also did Van Buskirk, a substitute on last year's team.

### LASELL SEMINARY

With an opening dinner attended by more than 200 members of the student body and the faculty, Lasell Seminary was Wednesday night launched on its 62nd year. The dinner was held at the school, following the custom of former years, and new pupils and new members of the faculty were introduced to school life.

The registration this year is the largest in the school's history. On account of the large increase the school has purchased a large mansion on Woodland road for use as a dormitory. This new addition has been named the Elizabeth Gardner House in honor of Elizabeth Gardner Bouguereau, a member of the class of 1856, who presented the school with the famous painting, "The Judgment of Paris," a few years ago.

There are several important faculty changes. Mrs. Miriam N. Loomis, who has severed her connection with the cooking department, is succeeded by Miss Edith C. Williams, Smith '97. Miss Caroline True has taken Miss Eleanor C. Perry's place in the English department. The new English instructor is a graduate of Colby, and has done graduate work at Radcliffe and Columbia. She has recently taught at Coburn Institute.

Miss Dorothy Shank, a graduate of Lewis Institute, takes the place of Miss Martha Hazlett as instructor in swimming and assistant in domestic science.

### LOYAL LADIES ENTERTAIN

The Loyal Ladies, a recently organized auxiliary of the Royal Arcanum opened the season Monday evening in Dennison hall, with an entertainment of dancing. A very interesting program was arranged for the occasion consisting of vocal and instrumental music and readings. Miss Dorothy Chaplin entertained the audience with some well rendered vocal selections and the readings by Miss Marie Bartlett were exceptionally fine and were enthusiastically applauded.

At the close of the entertainment dancing was enjoyed until a late hour. About 100 members and their families were in attendance.

R. F. KEITH'S THEATRE—A dazzling array of brilliant novelties, including many new acts and new stars is promised for R. F. Keith's Theatre next week, headed by what is unquestionably the biggest and most pretentious musical production ever staged in vaudeville. This is R. A. Rolfe's mammoth English pantomime, "Puss in Boots," americanized by Jean Bodini, and presented by Will J. Kennedy and a great company of thirty singers, dancers and comedians. "Puss in Boots" is the first of the celebrated English pantomimes to be brought to this country for vaudeville purposes, and Mr. Rolfe has quite outdone himself in staging the piece. The production is in four massive scenes, showing the Village House, the Palace Green, the Palace of the King, and the gorgeous Throne Room of King Rumpelstiltskin. More than ten principals are required to unfold the story, headed by Will J. Kennedy, one of the funniest of American comedians, as "King Rumpelstiltskin." A big chorus of twenty pretty girls is another attractive feature of the act. This splendid novelty will be but one feature of a gigantic show. Brown, Harris and Brown, including the inimitable "Hank" who returns after a long absence in their funny skit, "Just To Laugh," and others to appear are Hal Stephens in his big protean specialty, "Famous Characters in Famous Scenes," the 8 English Roses in a big terpsichorean specialty; Lew Hawkins, the Chesterfield of Minstrelsy; DeLour Trio, a novelty from the Old World, and many others.

#### A NEW BOOK

THE SANCTUARY, by Maud Howard Peterson. The hold which Maud Howard Peterson's first novel, "The Potter and the Clay," gained was so remarkable and lasting that the demand for a second book has never ceased. Unlike the modern school of prolific novelists, she has waited years before offering her second work, "The Sanctuary," and the result justifies the great care given to the production of a polished and powerful story of the present day.

"The Sanctuary" is a novel of especial timeliness in view of the increasing social unrest among the laboring classes. The hero, a man of wealth, culture, and position, tries by leading a dual though blameless life as society man and mill-farmer, to do something towards solving the most serious of problems, the fair-minded relation of one social class to another. But in attempting to solve this question, he becomes involved in another problem, still older and equally serious, the relation of man to woman. The author makes brotherhood the keynote of the story, and the soul-development of three characters, each along different lines, the chief issue. In doing this, she unites something of the Buddhist wisdom of the East with the Christian faith of the West, and in this way is taught that the basis of all wisdom and all faiths is something deeper than creed and broader than race differences. The complicated love situation is handled with superior skill and force, the style charms, and the great teachings of the book strongly impress every reader. Lothrop, Lee & Shepard Co., Boston. Price \$1.25.

EDMUND BREEZE AS BILL SIKES IN "OLIVER TWIST," PLYMOUTH THEATRE

which will be given at the Plymouth Theatre, for a limited two weeks' engagement beginning next Monday evening, Sept. 30. In its dramatic worth the company excels the famous days of the old Boston Museum stock company. It fairly sparkles with celebrated names. Four of the best known stars in America head the cast and in the supporting roles are a dozen most notable players. Scenically the revival is one of the most imposing and splendidly spectacular ever mounted. The occasion is really

desired Nancy, from Sir Herbert Tree's London revival at His Majesty's Theatre, London; and Edmund Breeze, one of the most distinguished of American players, as Bill Sikes. The ten scenes in the five acts are as faithful to the London Dickens as well known and described, as the desert sand storm in "The Garden of Allah." The Plymouth engagement is absolutely limited to two weeks, with regular matinees on Thursday and Saturday.

Many Newton families whose members have been or are pupils of the Makechne Violin School will be interested to know that its director, Mr. Ernst Makechne, has returned to his West Somerville residence from his vacation at Munsonville, N. H., to resume the activities of another season, beginning Sept. 15. The school has had large success in recent years as a result of its combination of class and orchestra lessons by means of which the pupils' general musical culture and technical capacity are alike promoted. Those Newton people who attended the annual recital in Huntington Chambers Hall, Boston, last June, appreciated that there was excellent fulfillment of Mr. Makechne's aim to develop simultaneously "artistic violin playing, quickness in sight reading and a definite knowledge of the essential facts of musical notation." The school headquarters are at 30 Huntington Avenue just above Copley Square, a point conveniently reached from all the suburbs.

Composer of "Robin Hood," Boston Theatre

pany are Bessie Abbott, soprano, Florence Wickham, contralto, and Herbert Waterous, basso. Walter Hyde, the tenor, a protégé of Hans Richter, has for four seasons been the tenor star at Covent Garden, London. Another member of this notable cast is Carl Gantvoort, baritone, late of the Boston Opera Company, and the creator of such roles as Sharpless in "Madame Butterfly" and Jack Rance in "The Girl of the Golden West." Others in this company are George B. Frothingham, the original Friar Tuck, which role he has played 4,500 times; Edwin Stevens, famous as singer, comedian and dramatic actor; Pauline Hall, the star of "Erminie" and numerous other successes; Gertrude Hutchison, of the Paris Opera; Philip Sheffield and Anna Huser. The production is under the direction of Daniel V. Arthur.

#### AN ENTERPRISING FIRM

We are very much interested in learning of the action of the George Close Company, of Cambridge, Mass., who make penny goods for children and the well known Toasted Marshmallow Muffins, in a recent endeavor to meet every requirement of the Pure Food Law.

The George Close Company is so interested in making pure candies that at a great expense they have built a new factory, perfect in ventilation, sanitation and equipment for making and handling candy; a factory the most fastidious housekeeper would like to inspect.

Every detail which will make for cleanliness and purity of goods has been carried out to the utmost and no expense has been spared to make it possible to make candies pure and clean.

Recently they have employed Prof. Samuel C. Prescott, Director of the Boston Bio-Chemical Laboratory, to deliver a series of six lectures on "Cleanliness and Purity" free to the employees of The George Close Company. These lectures instruct the employees in personal cleanliness and cleanliness in the manufacture and packing of candies. As much care is used in making and packing their Toasted Marshmallow Muffins as a careful housekeeper uses in baking a pie.

A brief quotation from the first address will indicate this idea. Prof. Prescott said, "I do not know of another concern engaged in manufacturing confectionery which has taken the trouble of getting their people together in working hours and hiring some one to come and explain these things. These facts which I hope to be able to give you are things that not only will help you to do your work in a more intelligent but in a more sanitary and clean way. For example: It is very essential that material should not drop on the floor. Do not get material on the floor because very piece of candy that drops on the floor is sure to get some germs on it." Then followed a short talk on the danger of germs.

In closing, Prof. Prescott said, "The lesson of this afternoon is briefly: bear in mind that dirt and filth go hand in hand and that you should avoid dirt so far as it is possible to do, both in your personal habits and in all your work around the factory."

Such action on the part of the manufacturers as the above work of The George Close Company deserves the hearty support of the public by their patronage of the goods put out by them.

#### MONDAY CLUB OUTING

On Saturday, Sept. 21st members of the Newton Monday Evening Club with ladies left Newton about noon in six touring cars for the South Natick farm of Mr. John Hopewell, one of their members, where they were royally entertained. Dinner was served at 1:30 everything on the table being a product of the farm. Members and guests were shown the apple orchard and grape, through the cow barn and also the cutting of corn for the silo. The members enjoyed quilts and the ladies ring toss and who the party left in the autos for home they were presented with jars of cream, apples and sweet corn. On the motion of the Rev. Mr. James, the thanks of the party given to the host and hostess for the royal good time enjoyed. The host replying extended an invitation to return next season.

## NEWTON GIRL WINS HONOR

At the June concours of the Royal Conservatory of Music in Brussels, Miss Nash, who is a member of the violin class, won the award against 22 contestants. The honor and importance of her achievement may be better understood when the fact is stated that Miss Nash is the first American to reach this award in the history of the Brussels Conservatory, and that the diploma given her renders her eligible to a violin professorship, or to enter upon the highest class concert work. Indeed, before her graduation she was tendered a three years' contract by a concert leader who is to begin a tour of the world in April next. This flattering offer was, however, declined, for it is her purpose to remain with her teacher, Prof. Alfred Marchot, for another year in order to develop her repertoire.

Boston, and in fact, all America, may be assured they will hear from this young artist, for it is asserted by the leading musical authorities that Miss Hildegarde will take first rank among the female violinists of the world.

She is the daughter of the late Harry Woodruff Nash, New England manager of the Worcester Salt Company. She was born in Watertown, Mass. Later the family moved to West Newton and lived on Prince Street. Miss Hildegarde attended Miss Carroll's School, and when she was eight years old began her violin studies with Miss Elizabeth Fyfe, of West Newton, daughter of Admiral Fyfe, with whom she studied until 1906, after the death of Mrs. Nash went abroad and took up her residence in Brussels in order to give Miss Hildegarde the advantage of what is generally conceded to be among the foremost violin schools of the world.

Miss Nash is not only a finished artist with the violin, having a personality and style of her own, but she is otherwise a talented young girl. At the age of fourteen she carried off first honors with the class of applicants for admission to the conservatory who were undergoing a rigid examination in French, the language of the institution.

## MURRAY-ALLEN

The wedding of Miss Laura Maud Gilman, the daughter of Mr. George H. Gilman and Mr. John Peter Suhr of Biddeford, Me., took place Wednesday evening at the residence of Mr. Clarence S. Pess on Brae Burn road, Auburndale, which was prettily adorned with cut flowers, palms and ferns in honor of the occasion.

The ceremony, which took place at 7.30 o'clock, was performed by Rev. John Matteson, rector of the Church of the Messiah.

The bride, who wore white crepe de chine with pearl trimmings, was accompanied by Miss Ruby Suhr, a sister of the groom as bridesmaid. She wore white net over pink silk.

Mr. Ralph E. Gilman of Old Orchard, Me., brother of the bride, was the best man.

A reception followed until ten o'clock. Mr. and Mrs. Suhr will make their home in Biddeford, Me.

## PARIS POKE AND "PSYCHE"

It is a problem for the psychologist, not the milliner, to explain why the charming chapeau of a year ago now creates such a disagreeable affective tone in consciousness.

The pretty Paris poke of the past, as physically perfect as the present, produced no pleasure psychologically for "Psyche" proclaims the case is no picture.

France is famous and foremost as fashion's forum for fascinating fabrics and fads for feminine form, face and fancy.

Caroline constantly crosses to that country on the continent to consult the creators and conceivers of color combinations, curve and contour and correct construction of capot and chapeau, and with the modern millinery models, methods and materials. She makes myriads of modern modifications for medium money.

There is fit and fitness, finish and form in her fashions, which feel firm, fine and familiar.

Miss Caroline invites you to inspect, not expects you to invest in, these inventions and conceptions. Block of Brunswick, 490 Boylston, Back Bay, Boston.

## THIEF GRABS POCKETBOOK

Two Young Men Try to Rob Two Waltham Women on Washington Street. One Woman Loses Purse

While walking along Washington street, near Hunnewell avenue, Newton, last Saturday night, two unknown young men approached in the rear of Miss Mary Duett of 110 Charles street, Waltham, and her sister, Miss Katherine Duett of 262 Crescent street, Waltham, and while one succeeded in snatching the pocketbook of Miss Mary Duett, which contained \$3.75, the other man was frightened away by the screams of the young lady.

The two young women were walking along in this section, which is quite dark, when the young men, who had been following them for some time, one on each side, when they abreast, each attempted to snatch their pocketbooks, the older one of the two wrestling the pocketbook from the arm of Miss Mary Duett before she was aware that it was gone. The younger man, encountered some difficulty, as her sister, held a tighter grip, and her cries scared him away, before he was successful in his attempt.

The two young women returned to Nonantum square, and there told their story to patrolman Dow. They described the men as being about 22 years of age, while the younger was possibly 16 years old, wore knickerbockers and a gray cap. After grabbing the pocketbook, the men ran up Washington street, to Waverley avenue, and when last seen were making their way towards Brighton.

## HOME CIRCLE

## PUBLIC INSTALLATION

Gethsemane Commandery, Knights Templar, held a public installation of officers on Tuesday night at the Masonic Temple, which was attended by a large gathering of Sir Knights and their ladies. The installation was notable for the fact that the retiring commander, Asa C. Jewett, returns to his former office of recorder, which he had held for 26 years previous to his service as commander. In further recognition of his faithful work, an increase of \$200 was voted to the salary of the recorder, and he was also presented with a past commander's jewel by Past Commander William E. Peterson.

Past Commander Albert L. Harwood presided over the installation with Past Commander Lewis E. Binyne as warden. They entered the chamber between the lines of the escort in charge of Adj. Billings.

The organization for 1912-13 is as follows: William L. Church, E.C.; Edward P. Hatch, G.; Charles J. Shepard, C.G.; George Breeden (P.C.); Rev. John Matteson, A.P.; A. H. Ducatur, S.W.; C. W. Henderson, Jr.; J. W. James, B. Fuller (P.C.); T. Dale, Std. B.; D. P. Lord, Std. B.; George J. Sleeper, W.; A. Sidney Bryant, 3d G.; John E. Cobb, 2d G.; William H. Colgan, 1st G.; Albert L. Walker, organist; Edgar E. Williams, sentinel and armorer.

Those named for the escort are: A. E. Billings, adjutant; Charles F. Ward, Horton S. Allen, Henry W. Twigg, W. G. S. Chamberlain, Charles H. Conant, F. W. M. Aler, Edgar M. Parker, Walter C. Whitney, W. F. Ingraham, Christopher I. Flye, Harold G. Noden, W. B. Livermore, Arthur W. Porter, E. E. Snyder, Harry B. Knowles, Frank F. Lamson, E. C. Fisher, E. A. Ross, Frank J. Chaplin, E. W. Palmer, E. H. Bull, C. M. Bates, P. C. Mann, H. B. Nickerson, Leo A. Wells, Frederick H. Paul, Jr., Leslie Dixon, E. E. Hicks, W. B. Barney, D. C. Cady, Charles E. Fogg and P. C. Sykes.

Past Sir Benjamin W. Rowell, grand recorder of the Grand Commandery, entertained the company in the evening to a delightful description of the wonders of Colorado, and it was especially timely as the Grand Commandery will visit Denver next August and Gethsemane will escort the then grand commander, one of its members. The descriptive powers of the grand recorder were very effective in portraying the beauties of the great State, and his talk was illustrated by 30 fine views. He was accorded a rising vote of thanks and received a bouquet at the hands of Commander Jewett.

Among those who were in attendance were Rt. Emt. William H. H. Soble, P.G.C.; Very Emt. Frank L. Nagle, D.G.C.; Emt. Sir George W. Bishop, P.G.L.; Generalissimo Arthur L. Foster of Joseph Warren Commandery and Past Commander Wm. F. Jarvis.

There were bouquets for the installing official and warden, bestowed by Commander Church. The company was regaled at a collation.

## EDITORIAL

The mass meeting Wednesday night  
at Newtonville, to protest against the  
location of a railroad across this city,  
accomplished as much as could be ex-  
pected, and that was very little. It  
gave Representative Ellis an opportu-  
nity to reiterate what he has said  
many times before, that in his opinion  
the railroad will never be constructed,  
and gave everyone a chance to  
express his disapproval of the whole  
proceeding.

So far as blocking the plans of the  
road are concerned, the protests made  
and the resolutions passed, are as  
futile as child's play.

The constant and steady increase  
in our advertising patronage has  
made it necessary, in justice to our  
readers, to increase the size of the  
Graphic from 48 to 56 columns, by  
adding one column to each page. This  
arrangement will allow not only a  
better display for our advertising but  
will give much needed space for our  
budget of news. We trust our readers  
and advertisers will appreciate the  
enlargement.

Within the next two or three weeks  
we shall publish a trade edition of  
the Graphic, in order to inform our  
readers of the extent and variety of  
the business, which makes its home  
in this city. There has been a grati-  
fying response from the merchants of  
the city, who evidently appreciate the  
value of advertising their business in  
the Graphic.

The renomination of Congressman  
John W. Weeks, which should have  
been done without a murmur, is a  
cause of gratification to his friends  
and the public which he has served  
so faithfully and well. Captain Weeks'  
record at Washington clearly shows  
that he is a man who honors the peo-  
ple by public service.

The nomination of Mr. G. Freder-  
ick Simpson of this city as councillor  
will ensure the services at the state  
house next year of a man of long and  
successful business experience and a  
worthy successor of the able man who  
have held that office in the past.

## BALL-WHITEHEAD

There was a pretty home wedding  
Wednesday afternoon at the residence  
of Mr. Thomas Whitehead on Morse  
street, Newton, when his daughter,  
Miss Edith Frances Whitehead, was  
married to Mr. Simeon T. Ball of  
Block Island, R. I. The ceremony  
was performed by Rev. Dr. Geo. S.  
Butters of the Methodist Church. The  
bride wore white tulle and carried  
carried roses and was accompanied  
by her sister, Mrs. Flora B. Tucker-  
man, as matron of honor, wearing  
point de esprit over pink satin, and  
the best man was Mr. George A. White-  
head, brother of the bride. A recep-  
tion followed the ceremony and after  
a wedding trip, Mr. and Mrs. Ball  
will make their home in Block Island.

## DEATH OF MRS. JOSSELYN

Mrs. Harriet M. Josselyn, widow of  
the late Charles H. Josselyn of Boston,  
died Monday, after an illness ex-  
tending over a period of several  
months. Mrs. Josselyn was 66 years  
of age and had been for many years  
a resident of Newton. The funeral  
took place Wednesday at the residence  
of her son, Mr. Charles E. Josselyn of  
Carleton street. Impressive services  
were conducted by Rev. Harriet H.  
Chamberlin, pastor of the Immanuel  
Baptist Church. The burial was at  
Mt. Hope Cemetery, where services  
were also held at 2:30. There were  
many beautiful floral tributes.

## PRESIDENT TAFT

(From the New York Sun)

From the heights of his majestic  
intellect the Hon. William Johnson,  
Rector of the Golden Gate, looks down  
on Mr. Taft, "politically the most pitiful  
figure in our political history."

What makes Mr. Taft the most pitiful  
political figure?  
Is it to have passed the Jeffersonian  
examination? Is it to have been honest,  
able, faithful to the Constitution?

Is it to have continued and carried  
out within the forms of law whatever  
was sane and desirable in the policies  
of Theodore Roosevelt?

Is it to have reduced, so far as the  
recommendations of the Executive com-  
mittee could reduce, the spendthrift reckless  
extravagance of Congress?

Is it to have given the United States  
an administration competent, intelli-  
gent, thoroughly progressive?

Is it to have achieved through the  
courts those prosecutions of violators  
of the Sherman act that Mr. Taft's  
predecessor effected mainly with his  
everlasting lungs, a kindly hand al-  
ways reaching behind his back for  
friendly contributions and supporters?

Is it to have made the White House  
a place of dignity and distinction, and  
not an exhibit of the Midway Plea-  
sance and an annex of Bedlam?

Is it to have been a constitutional  
and limited ruler, not a Byzantine  
autocrat?

Is it to have been faithful, loyal,  
modest, an intellect and not a voice,  
quietly pursuing amid the meanest  
treachery of old friends and associ-  
ates the path of honor?

Is it to have been straightforward  
among the crooked?

Is it to have been patient under  
such absolutely causeless calumny as  
has not been uttered against a Presi-  
dent since the days of the Aurora?

It strikes some of us, it may strike  
many of us, that the sense of justice  
and fair play is not yet dead among  
Americans. The Hiram Johnsons and  
the other shrieking derisives of the  
Mandi of Oyster Bay possess the air.  
But there is such a thing as overdo-  
ing it. It is not Mr. Taft that has  
changed since Mr. Roosevelt so justly  
praised him. Mr. Roosevelt wants  
the job. That is all there is to it.  
He will not get it. He may prevent  
Mr. Taft from getting it again. But  
Mr. Roosevelt, with all the inexhaus-  
tible discharge of his gall and all the  
patter of his parasites, cannot pre-  
vent the sober part of the American  
people, Republicans or Democrats,  
from acknowledging that William  
Howard Taft is fit to be President;  
and if Mr. Taft loses the presidency  
he cannot lose the respect of his  
countrymen. He is a man of truth,  
of rectitude, of honor.

If there were a candidate for Presi-  
dent of whom that could not be said,  
such a candidate would be the most  
pitiful political figure in our political  
history—since Aaron Burr.

## McLELLAN-SMITH

Miss Edna Adelle Smith, daughter  
of Mr. and Mrs. Arthur R. Smith of  
97 Berkeley street, West Newton,  
became the bride of Edward Car-  
lton McLellan, son of Mr. and Mrs.  
Edward McLellan of 1016 Centre  
street, Newton Centre, last Satur-  
day evening at the home of the  
bride's parents.

The ceremony was witnessed by a large gathering of  
friends of both bride and groom,  
and was performed by Rev. Edward  
M. Noyes, pastor of the First Cong-  
regational Church, Newton Centre.

The bride's sister, Mrs. Harold H.  
Burton of Cleveland, Ohio, was ma-  
tron of honor, and the bridesmaids  
were Miss Eleanor Pratt, Miss Mar-  
garet Merchant, and Miss Florence  
Sowell all of West Newton. Master  
Arthur R. Smith Jr. brother of the  
bride was ring bearer, and the bride-  
groom's attendant was Ralph M. Mc-  
Lellan of Chicago.

Following the ceremony, the couple  
held a reception, being assisted in  
receiving the guests by their  
parents. The ushers were Mr. Henry  
Elgins of New York City, Mr. Har-  
old Adams of Pittsfield, Mr. John  
Cogswell, Mr. Stanley Kingsbury  
and Mr. Howard D. Barton of New-  
ton Centre and Mr. Francis A. Smith  
of West Newton.

## WELLINGTON-UNDERWOOD

A charming feature of the wedding,  
yesterday afternoon, of Mr. C. Oliver  
Wellington of this city and Miss  
Helen Cushing Underwood of Belmont  
was the presence of the four sisters  
of the groom as bridesmaids. The  
ceremony took place at 4:30 o'clock  
at the residence of the bride, who is a  
daughter of Mr. and Mrs. H. O.  
Underwood of Belmont, and was per-  
formed by Rev. George Hale Reed of  
the Unitarian Church. The bride's  
sister, Miss Margaret Underwood, was  
the maid of honor and the brides-  
maids were the Misses Emily, Dor-  
othy, Barbara and Ruth Wellington of  
Newton. Mr. Henry Hill Wellington,  
brother of the groom, was the best  
man and the ushers were Messrs.  
Arthur B. Brooks, of Dedham, Henry  
F. Cross, of Providence, Harry F.  
Foster of Cambridge and Alan D.  
Kinsley of Newton.

A reception followed, Mr. and Mrs.  
Wellington being assisted in receiv-  
ing their friends by Mr. and Mrs.  
Underwood and Mr. and Mrs. A. J.  
Wellington.

After a wedding trip, Mr. and Mrs.  
Wellington will make their home in  
Belmont. The groom is well known  
in this city, and is connected with  
the firm of Clinton J. Scovell and Co.  
He is a graduate of Harvard.

## ATTEMPTED BOYCOTT AT SCHOOL

A tempest in a cocoon was caused  
last week by a strike of rather boy-  
cott (with the accent on the boy) by  
the young men attending the Classi-  
cal High School, of the food served  
in the lunch room. The boycott last-  
ed for one day and was then lifted  
for one week with the threat on the  
part of the boys that unless the food  
was improved before Wednesday of  
this week, it would be renewed with  
fresh vigor.

On Tuesday a representative of the  
Graphic visited the lunch room to  
learn the particulars first hand and  
found that Mr. Marshall, who has cat-  
tered to the High School students for  
the past 21 years, has always obtained  
his supplies of first class dealers  
in Boston and Newton. It is served  
in neat and clean quarters in the  
basement of the building, and so far  
as the writer could learn, the food  
was of excellent quality and most  
reasonable in price. The bread and  
doughnuts were made fresh each day  
and the sandwiches, made on the  
premises, were fresh and tasty.

That day Mr. Marshall served a fine  
Scottish broth, with bread for 5 cents  
a cup, splendid tasting cocoa for 3  
cents a cup, good-sized sandwiches,  
made of ham, lettuce, or jam were 5  
cents each. Buttered rolls were two  
for a nickel, doughnuts and cup cakes  
were three for 5 cents, bananas and  
apples were two for 5, and ice cream  
was served in 5 and 10 cent portions.

On other days Mr. Marshall serves  
chicken and marmalade sandwiches,  
fish chowder, tomato and cream of  
celery soup and fruit in season. From  
three to five hundred children are  
served each school day and many  
teachers have a more substantial  
lunch served after school closes.

Last year a committee of ladies  
representing the Newton Federation  
of Women's Clubs visited the lunch  
room and their report was fairly sat-  
isfactory, although they received the im-  
pression at that time that the food  
was not substantial enough for grow-  
ing children. This is evidently not  
the case at the present time, for a  
committee of the boys, who conferred  
with Mr. E. C. Adams, the master, on  
Wednesday, suggested that Mr. Mar-  
shall add cheese, olive and brown  
bread sandwiches to his menu and  
had very little to do but to criticise  
as to the food or service. Mr. Adams  
has suggested and Mr. Marshall has  
made an improvement in the quality  
of the cocoa, and the boycott has evi-  
dently subsided.

## A DISTINCTIVE NUMBER

Always of unvarying interest, the  
Saturday, Oct. 5, edition of the Bos-  
ton Evening Transcript will be in-  
teresting to thousands of persons with  
gratification and benefit because of the  
many specially written articles on a  
variety of interesting subjects which  
will be printed in it.

Anyone who has city, suburban,  
country or seashore real estate, house  
or farm anywhere in New  
England, or who is disposed to find it  
advantageous to advertise in this  
issue of the Boston Transcript, as it  
will have an exceedingly wide distri-  
bution and bring excellent results.

Many people who are not regular  
readers always look in the Transcript  
when they need a house, apart-  
ment, board or room, for they know  
that the largest lists of the better  
offerings are printed there, as well  
as "want" advertisements, specially  
capable business assistants and good  
servants.

## PLAYGROUND NOTES

The younger children at the New-  
ton Centre Playground, having taken  
such a deep interest in archery dur-  
ing the past few weeks, many using  
their own constructed bows and ar-  
rows, in the autumn of this year  
that a consignment of six fine  
lancewood bows and several dozen  
arrows have been placed in charge  
of Mr. Crafts, director of the New-  
ton Centre Playground for their use.

These bows and arrows are suit-  
able for use by boys and girls from  
12 to 16 years of age and the New-  
ton Centre residents are looking  
forward to see how much interest  
the younger people take in the art.  
Mr. Burton Payne Gray, G. P. Bry-  
ant and H. B. Richardson have sig-  
nified their intentions of giving one  
day of instruction to the children.

## BOY HURT

Peter Dunn, about eight years of  
age, was struck by the automobile of  
Street Commissioner Ross, Sunday  
night and received a broken leg. The  
accident took place on Washington  
street, Lower Falls. Mr. Ross, who  
was towing a disabled car, was trav-  
elling at a slow rate of speed, when  
the boy, who was with some other  
youths on the sidewalk, suddenly  
jumped into the street and ran direct-  
ly into the fender near the forward  
wheel. Mr. Ross had no opportunity  
to stop until the boy was hurt. He  
was taken into a physician's office and  
from there to the Newton Hospital.  
This is the first accident Mr. Ross  
has ever experienced, although he has  
travelled over 150,000 miles.

### ELECTRIC SHOW

The Great 1912 Boston Electric Show opens in Mechanic's Building, Boston, Saturday evening of this week, the 28th, at 7 o'clock. It will be a remarkable event.

Never before in the history of the electrical industry, and scarcely ever before in the history of exhibitions, has a Show been developed in which the words "Greatest and Largest" could be used truthfully in so many descriptive sentences.

This is a practical show for practical people—that means everybody. People will be treated here to the most magnificent, brilliant street illumination ever seen. Its beauty will be truly marvelous.

The electric outlining and decoration of the great Mechanics building (the largest structure of the kind in the world) is something that surpasses anything of the kind ever before attempted.

The interior of the building is a fairland. It is impossible to use words graphic enough to give the reader any adequate impression of its beauty and reality.

Around and within all this beauty are thousands of moving appliances all operated with electricity. It is impossible to enumerate them all. Suffice it to say that they are practical—that they will show how people everywhere—in homes, at social functions, on the streets, in the stores, in the factories and by rail—very walk and interest of life—will find things suited to their wants, and of such a practical nature that they can be used to advantage.

This is the Electric Day. People must now live in the Electric way in order to keep up with the pace everywhere set in the hustle and bustle of life. To be efficient one must be comfortable and happy; to be efficient one must have the best tools to work with—and they are all here now at the Great Electric Show.

**CASTLE SQ. THEATRE.**—"Sherlock Holmes" need merely be mentioned to arouse the interest of the public. The news that John Craig is going to revive this famous play at the Castle Square, next week will be welcome indeed. Acted both in America and in England, "Sherlock Holmes" ever since remained a popular play. The plot begins with the engagement of "Sherlock Holmes" by a royal personage to recover some letters, photographs and jewelry in the possession of a girl who is living as the protégée of a man and his wife who are blackmailers. Thenceforth the mystery grows, and in his pursuit of the packet, "Sherlock Holmes" encounters Professor Moriarty and his associates who endeavor to thwart him at every turn. He works himself out of many difficulties, and ends by falling in love with the girl who holds the papers, and whom he rescues. Mr. Craig will have a fine opportunity for character acting in the role of "Sherlock Holmes," and the entire cast will include the strength of his company at the Castle Square. A week from Monday he will present "The Aviator," with Wilson Melrose the favorite Boston actor, in the leading part.

—The Sunday school of Trinity church will reopen next Sunday, September 29, after the morning service. The afternoon services will be resumed the Sunday after next, the first Sunday in October, at 4.30 o'clock.

—Rev. M. A. Levy of the First Baptist Church was elected moderator at the 20th anniversary of the Boston West Baptist Association held Tuesday at Norwood. Mr. M. Grant Edwards of Chestnut Hill was chosen auditor.

—The marriage of Mr. Thomas S. Davis of West Newton and Miss Rose McKoon took place last Tuesday morning at the Church of the Sacred Heart. Both of the young people are well known in this village. Mr. Davis being engaged in the painting business, and Miss McKoon was the popular chief operator at the Wellesley telephone exchange. After a short wedding trip they will reside in their new home on Allerton road.

—Miss Doris Burbeck entertained the members of the Beta Phi Club an informal dancing party on Friday evening at her residence on Grant avenue. During the evening an elaborate collation was served and dancing was enjoyed until a late hour on the spacious veranda. A well arranged order of 20 dances was participated in by about 15 couples and a delightful and varied program of popular dance music was furnished by Mr. Schuyler Adams.

### ELECTRICAL DISPLAY

A distinctly attractive, artistic, and electrical display is just now attracting thousands of people to the big Boylston Street window of the Edison Building. It is an illuminated picture of Boston as the center of the Universe—at least at the present time, with the opening of the 1912 Boston Electric Show so near at hand.

The window has been transformed by scenery and stage settings to a panoramic view of the world. It reminds one in miniature of the views that used to be shown in the old days of the cyclorama. The window had been draped with old gold velvet, centering attention upon a scenic map representing the world. In the center of it, of course, is Boston. Here the scene has been mortified out to give an extended view upon an enlarged reproduction of Bert Poole's panoramic "Twentieth Century Boston." The enlargement, what photographers call a natural bromide enlargement—150 times larger than the original plate. This was 48 inches in size and the large picture is 48x100 inches.

The novelty of the exhibit lies in the treatment of the lighting effects that are secured by the use of a flashing device. Before the picture was framed a half dozen men worked as many hours at a time as they could stand the strain, mortising out with different sized punches the windows of the buildings shown in the view. This included the wharf buildings along Atlantic Avenue, the office buildings in the center city, apartment buildings, State House, and residences throughout the other portions of the city, and also the electric street lamps. More than 45,000 of these holes were punched in the picture.

Below the picture is reproduced in colors the Mechanics Building, and the outline and decorative lighting, which will be seen on the building during the Electric Show, which opens a week from next Saturday night, is carefully reproduced.

The cycle of the lighting effects lasts for three minutes. First is the full illumination of the scene, representing daylight, followed by an entrancing sunset, the development of moonlight effects with the flashing of the street lamps, the lights of the buildings down town, the lighting of the State House, and the resident sections. A particularly beautiful effect is secured along the Charles River reservation and out into the suburbs.

This panoramic scene will be on exhibition in the Edison Building window for some weeks.

### RECOVER DRIVING OUTFIT

A horse and buggy hired by an unknown man at the stable of Mr. Thomas A. Brady, Washington street, Newtonville, last Saturday night, and missing for two days was returned to the owner by Liquor Officer Richard J. Goode, who succeeded in catching the man in Sudbury.

Introlman Goode was chasing up the case in Sudbury when Albert E. Corthell, a farmer in that section came driving toward him with the horse of which he was in search. The man finally admitted that there was much work which a horse could do about his farm, and not having sufficient funds to purchase one, decided to obtain one on the plan above.

In court Tuesday morning, Corthell was sentenced to the House of Correction by Judge Bacon, and the sentence was suspended for three months.

### WEEKS WINS by \$800

Congressman John W. Weeks of this city was given a handsome vote in the Republican primary on Tuesday, receiving the nomination for Congress in the new thirteenth district over Richard H. Long of Framingham by a vote approximating 6200 for Weeks and 2400 for Long. Captain Weeks carried every place in the district except Ashland, Framingham and Norfolk, receiving a particularly fine vote in Newton and Brookline, the latter being 1181 for Weeks to 234 for Long.

Captain Weeks will be opposed at the election in November by ex-senator John J. Mitchell, of Marlboro, who won the Democratic nomination over Mr. Daley of Brookline by a small margin. A Bull Moose candidate is also expected although nothing definite can be learned at the present time.

## INTERESTING STREET HEARING BEFORE ALDERMEN

### Laying Out of Streets Under Betterment Act Favored and Opposed.—John D. Rockefeller to Serve as Juror

John D. Rockefeller was drawn as a juror for service next month at the Cambridge Superior Court, at the meeting of the aldermen on Monday night and the announcement created quite a sensation, until it was learned that the juror-to-be was not the noted financier but a resident of Auburn-dale. In addition to Mr. Rockefeller, Alderman Pratt drew the names of Frank J. Monks, Jerome Avenue, Frank W. Dorr, Lake Avenue, Her-mann C. Easty, Dedham Street, Edward M. Hall, Vernon Street and Frank H. Casey of Rustic Street as fellow jurors.

President Gray called the board to order and presided for a brief period, relinquishing the chair to vice president Moore at the hearing on the laying out of The Ledges Road, and Mr. Moore piloted the board through the remainder of the session. Aldermen Barker, Bemis, Blakemore, Cabot, Chadbourne, Cox, Early, Gordon, Heard, Higgins, Jamieson, Jones, Murphy, Pratt, Sullivan and Williamson were also present.

At the hearing on the Edison Co. petition for poles on Central Street, a protest was filed by Mrs. Mary W. Davis and others, and no one appeared at the hearing on the Edison Co. petition for conduits in Homer Avenue and on the Telephone Co. petition for poles in Floral Street. Vigorous remonstrances were made by Mr. J. L. Caverly, Mr. Patrick Kone and Mr. C. W. Keefe to the Telephone Co. petition for poles on Jewett Street.

At the hearing on the proposed laying out of Bishopsgate Road and The Ledges Road, under the betterment act, Mr. M. B. Jones and Mr. E. B. Bishop appeared in favor of the petition and Mr. Thomas W. Proctor, representing Mr. Robert Casson and Mr. Harry J. Carlson appeared in opposition.

Mr. Bishop presented a plan and explained the general lay-out of the property in the vicinity. He stated that with the development of the property, the roads in question were naturally being used more than in the past. The roads, he said, had been built but about 18 or 19 feet wide, but reservation had been made for forty foot streets. Mr. Bishop stated that in departing from his father's idea that private ownership of roadways was the best, he did so because he believed that times had changed. It was his opinion that years ago the narrow roads were plenty wide enough for the horse and carriage but with the advent of the six-cylinder car a wider roadway was needed. The cost of maintaining the narrow roads in the days of the horse and carriage was not very large, but with the automobiles of today the cost was too great for private owners. He believed also that many times complicated situations were avoided by having the roads owned by the city instead of by individuals.

Mr. Jones concurred with the remarks of Mr. Bishop, and said that he believed it only fair that the city should accept the streets, because of the high-class of property which was being developed there, the owners of which were paying the city fair sized taxes.

Mr. Thomas W. Proctor on behalf of Mr. Carlson and Mr. Casson called attention to the Board that in acting on petitions of this kind, the powers of the Board were practically judicial, and he quoted the opinions of several learned Supreme Court Justices to

bear out his contention. He said that in the notices of hearing it was stated that the public convenience and necessity require the laying out of streets, but he believed that this was not a fact, and that very few people outside of the property owners used these streets. It was his opinion that if the public necessity demanded the laying out of the streets, a much larger delegation would be present to favor it.

Mr. Proctor then called attention to the fact that according to the plan for the laying out of these streets, Bishopsgate Road would come to a dead end in the bog in the rear of Mr. Carlson's house, while The Ledges Road would terminate at the front door of Mr. Gray's house, and believed it it was to be carried much further the city would be obliged to erect a fence to keep the citizens from falling off the ledge.

He further said that if the roads were to be carried through and to connect with some other accepted street, the plan might perhaps be feasible, but under these circumstances it was not a matter of public necessity and common convenience, and trusted that the Board would not see fit to grant the petition.

Mr. Jones in reply to Mr. Proctor stated that the streets were being travelled more and more each day and even the "butcher, the baker and the candlestick maker" were entitled to good 40 foot streets here in order that they might safely drive their teams and automobiles up to the houses in order to make their daily sales. In regard to the terminal of the roads, Mr. Jones said that it was true that it was planned to end the present laying out of Bishopsgate Road in the bog, but the property had been reserved to make it 40 ft. in width clear through to Commonwealth Avenue, and that the reason for ending the present widening at this point was, that this was the height of the grade and it was deemed best to lay the drainage system out from this point. Mr. Jones said that in the case of The Ledges Road, the reason for ending the present laying out at this point was also that this was the height of the grade. He also said that space had been reserved to carry this street down over the banking which Mr. Proctor was so afraid of falling off, but it was not deemed advisable to do this at the present time because the property had not been developed enough to warrant it. Mr. Jones called attention to the fact that all the abutters except Messrs. Carlson and Casson had signed the petitions and that several of them would be obliged to pay much larger assessments than either of these gentlemen, and that it was his opinion that these streets should be laid out just as much as any other streets of the kind in the city.

Mayor Hatfield sent in quite a batch of communications including the request of the Forest Commissioner for \$1,000 for additional care of playgrounds, the City Clerk relative to the State election, the Buildings Commissioner for transfer of appropriations, the Board of Health for transfer of appropriation, and the City Engineer relative to the widening of Washington Street at Wales Street, and relative to a sewer easement near Hunnewell Avenue.

Petitions of T. D. Murphy for renewal of auctioneer license, of John

J. Cronin for license for bowling alleys and pool tables, and of the Edison Co. for attachments on Woodland Road were granted.

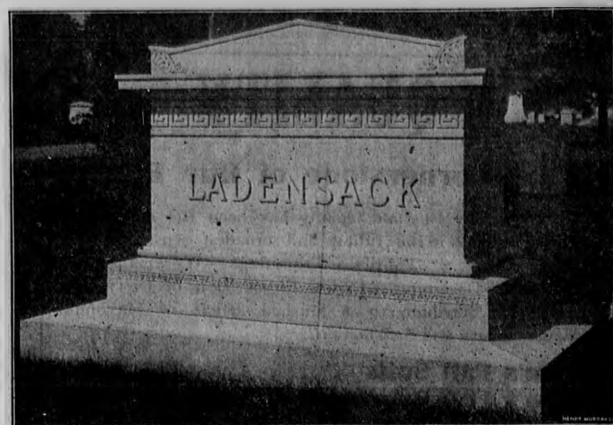

Other petitions received were from police officers for an increase of pay to \$1,200, of Frank Negrotti for common victualler license, of H. L. O'Connor for auto express license, for sewers in Pontiac Street, Carlton Road, Waban Avenue and Mossfield Road, for the laying out of Oakwood and Upland Roads, of George Scott for minors license, of John Fontecchio for liquor transportation permit, from residents of West Newton in aid of a petition of Dominick Guzzi for a liquor transportation permit, from G. N. Smith for damages caused by defect in Centre Street, and from the Telephone Co. for attachments on Linwood Avenue and Brookline Street.

On recommendations of committees \$3090 was authorized for laying water mains in Applegarth Road, Ashmont Avenue, California Street, Harding Street, Irvington Street, Morrill Street, Reservoir Avenue, Rowe Street, Waban Avenue and Warren Terrace. \$800 was appropriated for new meters and fittings, the Mayor was authorized to dispose of old engines and discarded furniture, concrete sidewalks under the betterment act were ordered laid on the east side of Cherry Street, sewers were ordered laid in Fairmont Avenue and Newtonville Avenue, hearings were ordered for October 7th on taking land for sewers in Warren Terrace and in Carter Street, for laying concrete sidewalks under the betterment act on Henshaw Street and on Bourne Street, on the proposed widening of Pearl Street, on the widening of River and Lexington Streets, and on taking a drain easement near Hunnewell Avenue. Other orders adopted included a transfer in the City Messenger department appropriations, authorizing sidewalk assessments on Ware Road, Winona Street and Beacon Street, authorizing certain street sprinkling and moth assessments, making grant of \$1,100 for Public Buildings department, establishing polling places for the state election, calling meetings for the state election, granting the Edison Co. pole locations on Lake Avenue and Newtonville Avenue, attachments on Dovers Street, Bennington Street, and Aberdeen Street, and granting the Telephone Co. a relocation on Grant Avenue and attachments on Bridge Street, Dexter Road, Fairmont Avenue and Waldorf Road.

An order creating certain appropriations with receipts on account of the same was refused adoption as recommended by the Finance Committee, Alderman Murphy alone voting in its favor.

The following licenses were granted:—Frank Hawkins and William R. Black, minors, Raffella Scincarella, 2 pool tables, F. McDaniel, wagon license, L. Lombardi, wagon license, R. W. Jameson, auto express and Mary A. McGuire common victualler license. Leave to withdraw was granted on license petitions of Susan Rollins, common victualler, Max Franklin for junk license, August Ublinger for street band, Domenico Guzzi for liquor transportation permit, Everett C. Dodge for 6th class liquor license, Janakas Bros. for common victualler, Frank Toscano for pool table and to the Edison Co. for poles on Pleasant Street.

The board adjourned at 9:40 P. M.
